Subject: Northampton Lead Tailings Project Update

Hello,

The Northampton Lead Tailings Project achieved a significant milestone recently with the awarding of the contract for the Townsite Remedial Works. The contract was awarded to Merit Consulting Group, a WA based civil engineering and earthworks firm who specialise in remediation projects.

Merit will now be responsible for delivering the remediation of the 129 properties identified in Phase 1 as being impacted by lead tailings contamination. Merit's key subcontractor is Aurora Environmental, who delivered the Phase 1 investigation works for the Project, and who will now be responsible for the environmental management and community consultation works for Phase 2. Merit will also be subcontracting local suppliers and subcontractors to deliver aspects of the works.

Pre-Works Property Inspections will commence at the end of June. The Pre-Works Property Inspections will include an inspection of your property to physically mark out the location of the remediation area, conduct inspections of relevant buildings/structures and observe any potential health and safety issues. The Contractor may also discuss and agree with you the temporary relocation of any structures or objects which may require relocation to facilitate remedial works.

A representative from Merit will soon be in contact with you to arrange a suitable time for the Pre-Works Property Inspection at your property.

Communication with the affected property owners continues to be our number one priority. The Department is available any questions that you may have. Please contact Mr. Antoine Macmath, Manager – Land Access on telephone (08) 6552 4490 or Ms. Sheri-lynn Ludwig, Project Manager – Northampton Lead Tailings Project on (08) 6552 4442, or email the Project email address at northamptonlead@lands.wa.gov.au.

Kind Regards,

Sheri-lynn Ludwig | Project Manager, Northampton Lead Tailings Project | LAMS
