PREAMBLE

This Local Planning Scheme of the Town of Bassendean consists of this Scheme Text and the Scheme Maps. The Scheme Text should be read with the Local Planning Strategy for the Town.

Part 2 of the Scheme Text sets out the Local Planning Framework. At the core of this Framework is the Local Planning Strategy which sets out the long-term planning directions for the local government, applies State and regional planning policies and provides the rationale for the zones and other provisions of the Scheme. In addition to the Local Planning Strategy, the Framework provides for Local Planning Policies which set out the general policies of the local government on matters within the Scheme.

The Scheme divides the local government district into zones to identify areas for particular uses and identifies land reserved for public purposes. Most importantly, the Scheme controls the types of uses and development allowed in different zones. There are particular controls included for heritage and special control areas. The Scheme Text also sets out the requirements for development approval, enforcement of the Scheme provisions and non-conforming uses. *AMD 10 GG 23/02/18*

 - (iii) car based retail in the Bassendean Village Shopping Centre;
- c) to accommodate a diversity of commercial, cultural and residential facilities;
- d) to encourage the integration of existing and proposed facilities within the zone so as to promote ease of pedestrian movement and the sharing of infrastructure, as well as to retain the opportunity for any future expansion of the area;
- e) to achieve safety and efficiency in traffic circulation;

- g) to provide sheltered places for pedestrians and shade to car parking areas;
- h) to preclude the storage of bulky and unsightly goods from public view;
- i) to provide landscaping appropriate to the scale of development; and

- c) to achieve safety and efficiency in traffic circulation, and also recognise the function of Collier Road as a regional road;
- d) to provide car parking and landscaping appropriate to the scale of development;
- e) to preclude the storage of unsightly goods from public view; and
- f) to ensure that development conforms with the Local Planning Strategy and the principles of any Local Planning Policy adopted by the Council.

3.3 ZONING TABLE

3.3.1 The Zoning Table indicates, subject to the provisions of the Scheme, the uses permitted in the Scheme area in the various zones. The permissibility of any uses is determined by cross reference between the list of use classes on the left hand side of the Zoning Table and the list of zones at the top of the Zoning Table.

3.3.2 The symbols used in the cross reference in the Zoning Table have the following meanings:

AMD 10 GG 23/02/18

- 'P' means that the use is permitted by the Scheme providing the use complies with the relevant development standards and the requirements of the Scheme;
- D' means that the use is not permitted unless the local government has exercised its discretion by granting development approval;
- 'A' means that the use is not permitted unless the local government has exercised its discretion by granting development approval after giving special notice in accordance with clause 64 of the deemed provisions;
- 'X' means a use that is not permitted by the Scheme.

3.3.3 A change in the use of land from one use to another is permitted if:

AMD 10 GG 23/02/18

- a) the local government has exercised its discretion by granting development approval;
- b) the change is to a use which is designated with the symbol 'P' in the cross reference to that zone in the Zoning Table and the proposed use complies with all the relevant development standards and any requirements of the Scheme;
- c) the change is an extension of a use within the boundary of the lot which does not change the predominant use of the lot; or
- d) the change is to an incidental use that does not change the predominant use of the land.

- Note:*
- 1. *The development approval of the local government is required for the development of land in addition to any approval granted for the use of land. In normal circumstances one application is made for both the use and development of land.*
 - 2. *The local government will not refuse a 'ID' use because of the unsuitability of the use for the zone but may impose conditions on the use of the land to comply with any relevant development standards or requirements of the Scheme, and may refuse or impose conditions on any development of the land.*
 - 3. *In considering a 'D' or 'A' use, the local government will have regard to the matters set out in clause 67 of the deemed provisions.*
 - 4. *The local government must refuse to approve any 'X' use of land. Approval to an 'X' use of land may only proceed by way of an amendment to the Scheme.*

3.4 INTERPRETATION OF THE ZONING TABLE

3.4.1 Where a specific use is mentioned in the Zoning Table, it is deemed to be excluded from the general terms used to describe any other use.

3.4.2 If a person proposes to carry out on land any use that is not specifically mentioned in the Zoning Table and cannot reasonably be determined as falling within the type, class or genus of activity of any other use category the local government may:

- a) determine that the use is consistent with the objectives of the particular zone and is therefore permitted;
- b) determine that the use may be consistent with the objectives of the particular zone and thereafter follow the advertising procedures of clause 67 of the deemed provisions in considering an application for development approval; or
AMD 10 GG 23/02/18
- c) determine that the use is not consistent with the objectives of the particular zone and is therefore not permitted.

3.5 ADDITIONAL USES

Despite anything contained in the Zoning Table, the land specified in Schedule 2 may be used for the specific use or uses that are listed in addition to any uses permissible in the zone in which the land is situated subject to the conditions set out in Schedule 2 with respect to that land.

Note: An additional use is a land use that is permitted on a specific portion of land in addition to the uses already permissible in that zone that applies to the land.

3.6 RESTRICTED USES

Despite anything contained in the Zoning Table, the land specified in Schedule 3 may only be used for the specific use or uses that are listed and subject to the conditions set out in Schedule 3 with respect to that land.

There are no restricted uses which apply to the Scheme.

Note: A restricted use is the only use or uses that is permitted on a specific portion of land and other uses that would otherwise be permissible in the zone are not permitted.

3.7 SPECIAL USE ZONES

3.7.1 Special use zones are set out in Schedule 4 and are in addition to the zones in the Zoning Table.

3.7.2 A person must not use any land, or any structure or buildings on land, in a special use zone except for the purpose set out against that land in Schedule 4 and subject to compliance with any conditions set out in Schedule 4 with respect to that land.

There are no special use zones which apply to the Scheme

Note: Special use zones apply to special categories of land use which do not comfortably sit within any other zone in the Scheme.

3.8 NON-CONFORMING USES

Except as otherwise provided in the Scheme, no provision of the Scheme is to be taken to prevent:

- (a) the continued use of any land for the purpose for which it was being lawfully used immediately prior to the Gazettal date;
- (b) the carrying out of any development on that land for which, immediately prior to the Gazettal date, an approval or approvals, lawfully required to authorise the development to be carried out, were duly obtained and are current; or
- (c) subject to clause 80 of the deemed provisions, the continued display of advertisements which were lawfully erected, placed or displayed prior to the Gazettal date. *AMD 10 GG 23/02/18*

Note: "Land" has the same meaning as in the Planning and Development Act and includes houses, buildings and other works and structures.

3.9 EXTENSIONS AND CHANGES TO A NON-CONFORMING USE

AMD 10 GG 23/02/18

3.9.1 A person must not:

- a) alter or extend a non-conforming use;
- b) erect, alter or extend a building used in conjunction with or in furtherance of a non-conforming use; or
- c) change the use of land from a non-conforming use to another nonconforming use,

without first having applied for and obtained development approval under the Scheme.

3.9.2 An application for development approval under this clause is to be advertised in accordance with clause 64 of the deemed provisions.

3.9.3 Where an application is for a change of use from an existing nonconforming use to another non-conforming use, the local government is not to grant its development approval unless the proposed use is less detrimental to the amenity of the locality than the existing non-conforming use and is, in the opinion of the local government, closer to the intended purpose of the zone.

3.10 DISCONTINUANCE OF NON-CONFORMING USE

Where a non-conforming use of any land has been discontinued for a period of 6 months the land must not be used after that period otherwise than in conformity with the provisions of the Scheme.

3.11 TERMINATION OF A NON-CONFORMING USE

The local government may effect the discontinuance of a non-conforming use by the purchase of the land, or by the payment of compensation to the owner or occupier or to both the owner and occupier of that land, and may enter into an agreement with the owner for that purpose.

Note: Sections 190 and 191 of the Planning and Development Act enables the local government to purchase, or, with the consent of the Governor, compulsorily acquire land for the purpose of a town planning scheme, subject to Part 9 of the Land Administration Act 1997, that section and the Scheme.

3.12 DESTRUCTION OF NON-CONFORMING USE BUILDINGS

AMD 10 GG 23/02/18

If a building used for a non-conforming use is destroyed to 75% or more of its value, the building is not to be repaired, rebuilt, altered or added to for the purpose of being used for a non-conforming use or in a manner not permitted by the Scheme, except with the development approval of the local government.

PART 4 - GENERAL DEVELOPMENT REQUIREMENTS

4.1 COMPLIANCE WITH DEVELOPMENT STANDARDS AND REQUIREMENTS

Any development of land is to comply with the provisions of the Scheme.

4.2 R-CODES

AMD 10 GG 23/02/18

- 4.2.1 A copy of R-Codes is to be kept and made available for public inspection at the offices of the local government.
- 4.2.2 Unless otherwise provided for in the Scheme, the development of land for any of the residential purposes dealt with by the R-Codes is to conform with the provisions of those Codes.
- 4.2.3 The R-Codes density applicable to land within the Scheme area is to be determined by reference to the R-Codes density number superimposed on the particular areas contained within the borders shown on the Scheme Map or where such an area abuts another area having a R-Code density, as being contained within the area defined by the centre-line of those borders.

4.3 SPECIAL APPLICATION OF R-CODES

AMD 10 GG 23/02/18

4.3.1 Split Density Code and Corner Lots

4.3.1.1 Where a Split Density Code is depicted on the Scheme maps, any development shall conform to the lower density code applicable to the lot, unless Council determines that development up to the middle or higher density code is acceptable, having regard for sub-clause 4.3.1.2.

4.3.1.2 Subdivision or development in excess of the lower density coding shall be considered to be acceptable to Council where:-

(i)

i. Single Houses or Grouped Dwellings:

In this opinion of Council the lot has a frontage to a public street which is sufficient to allow at least two dwellings to be constructed in a side by side configuration, each with direct frontage to a public street, along with addition width to accommodate a driveway with landscaping serving any additional dwellings to the rear of the development site;

AMD 8 GG 23/02/18

(ii) There is due regard for relevant Local Planning Policies;

(iii) Identified heritage objectives are not compromised;

(iv) The proposal demonstrates elements of water sensitive urban design; and

(v) The existing streetscape is being preserved.

4.3.1.3 The Council may permit the development, or support the subdivision of an existing R17.5 or R20 coded corner lot to a maximum density of R25 provided the original lot has frontage to two constructed roads and any new lots created or new dwellings constructed shall have their own frontage to a constructed road.

4.3.1.4 The amalgamation of abutting lots with an existing corner lot in order to create a larger lot for the purpose of development and/or subdivision at a higher density is not consistent with the intent of clause 4.3.1.4 and the original R17.5 or R20 code shall apply to the abutting amalgamated lot.

4.3.2 Multiple Dwellings on Land Coded R40 or Less

AMD 8 GG 23/02/18

4.3.2.1 Notwithstanding the provisions of the R-Codes, where land with a residential density code of R40 is located outside the area of a walkable catchment of 800 metres around an activity centre, specialised centre or railway station on a high frequency rail route as shown on the Scheme Map, the development of multiple dwellings on the land:

- (i) shall be subject to the average site area per grouped dwelling requirement specified by the R-Codes for grouped dwellings on land with an R40 residential density code; and
- (ii) shall not be subject to any maximum plot ration requirements specified by the R-Codes

4.4 RESTRICTIVE COVENANTS

AMD 10 GG 23/02/18

4.4.1 Subject to clause 4.4.2, a restrictive covenant affecting any land in the Scheme area by which, or the effect of which is that, the number of residential dwellings which may be constructed on the land is limited or restricted to less than that permitted by the Scheme, is hereby extinguished or varied to the extent that it is inconsistent with the provisions of the R-Codes which apply under the Scheme.

4.4.2 Where clause 4.4.1. operates to extinguish or vary a restrictive covenant the local government is not to grant development approval to the development of the land which would, but for the operation of clause 4.4.1, have been prohibited unless the application has been dealt with as an 'A' use and has complied with all of the advertising requirements of clause 64 of the deemed provisions.

4.5 VARIATIONS TO SITE AND DEVELOPMENT STANDARDS AND REQUIREMENTS

AMD 10 GG 23/02/18

4.5.1 Except for development in respect of which the R-Codes apply, if a development is the subject of an application for development approval and does not comply with a standard or requirement prescribed under the Scheme, the local government may, despite the non-compliance, approve the application unconditionally or subject to such conditions as the local government thinks fit.

4.5.2 In considering an application for development approval under this clause, where, in the opinion of the local government, the variation is likely to affect any owners or occupiers in the general locality or adjoining the site which is the subject of consideration for the variation, the local government is to:

- a) consult the affected parties by following one or more of the provisions for advertising uses under clause 64 of the deemed provisions; and
- b) have regard to any expressed views prior to making its determination to grant the variation.

4.5.3 The power conferred by this clause may only be exercised if the local government is satisfied that:

- a) approval of the proposed development would be appropriate having regard to the criteria set out in clause 67 of the deemed provisions; and

- b) the non-compliance will not have an adverse effect upon the occupiers or users of the development, the inhabitants of the locality or the likely future development of the locality.

4.6. ENVIRONMENTAL CONDITIONS

- 4.6.1 There are no environmental conditions to the Scheme.
- 4.6.2 Environmental conditions to which the Scheme is, or amendments to the Scheme are, subject are incorporated into the Scheme by Schedule 10 of the Scheme.
- 4.6.3 Where appropriate, the environmental conditions are indicated on the Scheme Map by the symbol EC to indicate that environmental conditions apply to the land.
- 4.6.4 The local government is to:
 - a) maintain a register of all relevant statements published under sections 48F and 48G of the EP Act; and
 - b) make the statements available for public inspection at the offices of the local government.

Note: Environmental conditions are those required to be incorporated into a Scheme or an amendment to a Scheme following assessment under the Environmental Protection Act 1986.

4.7 GENERAL DEVELOPMENT REQUIREMENTS

4.7.1 Unkempt Land

To preserve the Local Amenity:

- a) for any land within the Town, where in the opinion of the Council any undergrowth, refuse, rubbish or disused material is likely to adversely affect the amenity of the area or the health, comfort or convenience of the inhabitants thereof, the Council may cause a notice to be served on the owner or occupier of such land requiring, within a specified time, removal from the land of such undergrowth, refuse, rubbish or disused material;
- b) every owner or occupier of land to whom a notice is served shall comply with it within the time period therein specified; and
- c) any person who fails to comply with any notice served commits an offence and is liable to action under section 218 of the Planning and Development Act.
AMD 10 GG 23/02/18

4.7.2 Carparking *AMD 10 GG 23/02/18*

4.7.2.1 General

A person shall not develop or use land or erect, use or adapt any building for use for the purpose indicated in Table 1 of the Scheme, unless car parking spaces of the numbers specified in Table 2 are provided and such spaces are constructed, marked and maintained in accordance with the provisions of the Scheme.

Where an application is made for development approval and the purpose for which the land or building is to be used is not specified in Table 2, the local government shall determine the number of car parking spaces to be provided on the land having regard to the nature of the proposed development, the number of employees likely to be on the site, the prevention of the

obstruction of roads and streets, and the orderly and proper development of the locality and the preservation of its amenities.

4.7.2.2 Consideration of Applications Requiring Off Street Parking

When considering any application for development approval, the local government shall have regard to and may impose conditions on the required car parking spaces. In particular, the local government shall take into account and may impose conditions concerning:

- (i) the proportion of car parking spaces to be roofed and covered;
- (ii) the proportion of car parking spaces to be below natural ground level;
- (iii) the means of access to each parking space and the adequacy of any vehicular manoeuvring area;
- (iv) the location of the car parking spaces on the site and their effect on the amenity of adjoining development, including the potential effect if those spaces should later be roofed, covered or enclosed.
- (v) the extent to which car parking spaces are located within the required building setback areas;
- (vi) the location of proposed public footpaths, vehicular crossings, private footpaths within the lot, and the effect on both pedestrian and vehicular traffic movement and safety;
- (vii) the suitability and adequacy of proposed screening or natural planting; and
- (viii) the design and layout of other types of parking facilities such as bicycle parking facilities.

4.7.2.3 General Requirements for Off-street Parking

The following general requirements apply when off street parking is required:

- (i) classification certificates for any buildings or structures requiring such certificates shall be issued only after all parking and loading facilities have been completed in accordance with the Scheme;
- (ii) when the use of any building is changed to a use requiring greater parking facilities, additional parking shall be provided to meet the new requirements. When the use of any premises is enlarged or expanded, additional parking to meet the requirements of this section shall be provided for the enlarged and expanded portion only;
- (iii) any off street parking or loading facility which is permitted but not required by the Scheme, shall comply with the standards herein governing the location, design, improvement and operation of such facilities;
- (iv) all permitted or required parking and loading facilities shall be provided on the same lot as the building or use served, except in cases where the local government considers off-site location to be appropriate due to varying physical and economic conditions;
- (v) use of car parking spaces for the storage of merchandise, vehicles for sale, recreational vehicles, trucks, wrecked or abandoned vehicles or the repair of vehicles is prohibited;

- (vi) the dimensions of car parking spaces, parking angle, driveway widths and landscaping detail in the relevant local government's policy shall be used by the local government in determining the layout of car parking areas; and
- (vii) the local government may vary the dimensions specified by up to 10 percent where obstructions, site dimensions or topography result in the loss of a car parking space in any run of car parking spaces. This provision shall be used in order to obtain one additional space in a run of spaces and shall requirements.

4.7.2.4 Joint Use of Parking Facilities

Parking facilities may be provided jointly subject to the satisfaction of the requirements contained hereunder. When there is an overall deficiency in the number of spaces provided, parking facilities for an adjoining use, where peak hours of operation are substantially different, may be provided jointly. Such joint usage shall be subject to the satisfaction of the following conditions:

- (i) the submission of sufficient evidence to demonstrate that no substantial conflict will exist in the principal hours or peak demand of the buildings or uses for which the joint use is proposed;
- (ii) the number of parking spaces which may be credited against the requirements of each building or use involved shall not exceed the number of spaces reasonably anticipated to be available during the hours of operation;
- (iii) parking spaces designated for joint use shall be easily accessible and no further than 200 metres in distance from an appropriate entrance of the building which the spaces are proposed to serve; and
- (iv) the local government may require an agreement to be entered into between the owners and occupiers of the adjoining properties as to the terms and conditions of the joint use of the parking facilities and providing for the creation of easements or other rights in order to ensure the continued availability of a specified number of parking spaces for the use of each of those properties.

Where the owner demonstrates to the satisfaction of the local government that there is not the demand for the number of parking spaces specified in Table 2, the local government may permit the owner to provide landscaping in lieu of parking spaces not constructed and the landscaping shall be included in calculations as car parking but not as landscaping, but the local government may from time-to-time require that additional parking spaces be provided.

4.7.2.5 Cash in Lieu of Parking

In the Town Centre and Commercial Zones where a developer satisfies the local government that the minimum car parking requirements cannot be provided on the site, the local government may accept a cash payment in lieu of the provision of car parking spaces, but subject to the following requirements:

- (i) a cash-in -lieu payment shall be not less than the estimated cost to the owner Of providing and constructing the parking spaces required by the Scheme, plus the value, as estimated by the Valuer-General of that area of this land which would have been occupied by the parking spaces;

- (ii) before the local government agrees to accept a cash payment in lieu of the provisions of parking spaces, the local government must either have already provided a public car park nearby, or must have firm proposals for providing a public car park area nearby within a period of not more than eighteen months from the time of agreeing to accept the cash payment; and
- (iii) payments made under this clause shall be paid into a special fund to be used to provide public car parks and the local government may use that fund to provide public car parks in the immediate vicinity.

4.7.2.6 Landscaping Construction and Maintenance

The owner and occupier of premises on which car parking spaces are provided shall ensure that:

- (i) the car parking area is landscaped with shade trees, laid out, constructed, drained and maintained in accordance with the approved plan;
- (ii) the car parking spaces are sealed and clearly marked out at all times to the satisfaction of the local government; and
- (iii) all trafficable areas to be sealed to the satisfaction of the local government.

4.7.2.7 Landscaping for Off-Street Parking

Boundary landscaping shall be provided for parking areas with more than 5 parking spaces and interior landscaping shall be provided for open parking areas with 21 or more parking spaces. Landscaping shall comply with the following requirements:

- (i) all areas between parking areas and adjoining streets shall have a minimum of 2.0 metres wide permanent landscape area, except in the instance of corner lots, where minimum width of 1.0 m shall apply. In addition, the local government may also require permanent landscaping between the parking area and all other side and rear property lines; and
- (ii) for open parking areas, with 21 or more parking spaces, there shall be provided a minimum of 1 square metre of permanent landscaping for every 10 Square metres of parking bay area. Such landscaping shall not be in addition to any other landscaping required by this Scheme.

4.7.2.8 Short-Term Parking Bays

In addition to the car parking requirements specified in Table 2, the local government may require the provision of additional car parking bays for short term parking for the purpose of dropping-off persons attending/visiting a property.

4.7.10 **Development on Land Subject to Dampness**

Where, in the opinion of the local government, the dampness of the site on which a building is proposed to be constructed so warrants, the local government may require that one or all of the following measures shall be carried out:
