

2020-21 COASTAL GRANT RECIPIENTS

Recipient	Project	Description	Grant Amt	Grant
Karajarri Traditional Land Association	Karajarri Coastal Tourism Zone Infrastructure Project	Planning for tourism areas around Port Smith Tourism Precinct, and installation of boardwalks and tourism shelters in key locations to support and manage human impacts and increasing tourism pressures.	\$31,000	Coastwest
City of Greater Geraldton	Separation Point Coastal Dune Management	Providing resilience to the beach and dunes through a combination of stabilisation, fencing, and access way formalisation.	\$16,900	Coastwest
City of Greater Geraldton	Cape Burney Lookout Dune Rehabilitation	Improving dune resilience through a combination of dune stabilisation, access management and sturdy sand trapping fencing.	\$7,500	Coastwest
Shire of Gingin	Gingin Coastal Hazard Risk Management and Adaptation Plan and Inundation Study Integration	Integration of information from the recently completed Inundation Study into the Shire's Coastal Hazard Risk Management and Adaptation Plan (CHRMAP) to deliver an updated and holistic approach to coastal management within the Shire of Gingin.	\$52,900	Coastal Management Plan Assistance Program
Northern Agricultural Catchments Council.	Building community capacity in the Northern Agricultural Region	A project to reverse a steady downturn in coastal community capacity by expanding existing community forums; developing online curriculum-based material for schools; and updating and revamping an existing Coastcare Resource to be more relevant for the Coastcare community.	\$19,400	Coastwest
Friends of North Ocean Reef-Illuka Foreshore	Conservation, Restoration, Education - Bush Forever 325 Illuka Foreshore	A continuation of previous work aimed at conserving, restoring and protecting the biodiversity of the northern end of Bush Forever site 325. The project will also monitor wildlife and occurrence of feral animals of the reserve.	\$16,780	Coastwest
Mullaloo Beach Community Group Inc	Mullaloo Foreshore Rehabilitation 2020-21	Continuing removal of invasive weeds to improve the low coastal vegetation diversity and habitat values of threatened and endangered coastal flora and fauna species. It will focus on engagement and education of members, the community, local schools and community-based youth groups, through on-ground activities, knowledge sharing education workshops.	\$25,500	Coastwest
Cambridge Coastcare Inc	Floreat Beach Dune Restoration	Restoration of vegetation cover for the dunes fronting Floreat Surf Life Saving Club, the Floreat Kiosk and adjoining playground area. Erosion in this area is threatening infrastructure and is identified in the 2019 'Coastal Erosion Hotspots in WA' report.	\$10,590	Coastwest

Recipient	Project	Description	Grant Amt	Grant
Town of Cambridge	Town of Cambridge Coastal Hazard Risk Management and Adaptation Plan	This project will develop a CHRMAP to build on the findings of a coastal processes and vulnerability assessment, and provide strategic guidance on the coordinated, integrated and sustainable management of at-risk coastal areas over the short, medium and long-term.	\$49,710	Coastal Management Plan Assistance Program
Stirling Natural Environment Coastcare Inc	Integrated Foreshore Restoration in City of Stirling and Trigg Scarborough Coast Stage 2	This project will continue the ecological restoration of the coastal areas within the City of Stirling. A significant section of coast between South Trigg and North Scarborough is inundated with invasive weed species, loss of natural habitats and erosional forces. The degraded area will undergo native planting and will provide a link between successful restoration projects.	\$49,945	Coastwest
City of Stirling	City of Stirling Coastal Hazard Risk Management and Adaptation Plan	This project will build upon a coastal hazard assessment completed in 2016, completing the remaining stages of a CHRMAP. It will provide adaptation planning responses to coastal hazards over the short, medium and long-term.	\$50,000	Coastal Management Plan Assistance Program
Town of Cottesloe	Cottesloe Foreshore Dune S12 Restoration Project	This project will continue the commitment to ecologically restore the Cottesloe coastline. Several sites are completely degraded and have very low native species diversity, and are inundated with invasive weeds and dense couch grass growth. Erosion is also evident in areas that have steep slopes and are impacted by humans.	\$7,126.25	Coastwest
City of Nedlands	Swanbourne Oval Greenway Development - Stage 2	This project will increase bushland areas and improve it as a biodiversity corridor by converting part of the oval and parkland areas to coastal shrublands. It will rehabilitate other localised degraded dune areas through invasive weed control and infill planting. It will increase the ecological integrity of the entire coastal corridor by enhancing linkages to adjacent bushland areas as well as coastal areas north and south in Cottesloe and Cambridge.	\$16,433	Coastwest
Perth NRM	Coastal Capacity Building in the Perth Region	This project will engage current and prospective community Coastcare volunteers in training, knowledge sharing, skills development and education focussed on coastal conservation and restoration.	\$19,400	Coastwest
City of Melville	Bicton Foreshore Reclamation Project	This project will upgrade the footpath along Blackwall Reach Parade on the Bicton Foreshore, to reclaim vegetated foreshore where the old path currently stands. This project contributes directly to restoring riparian vegetation of the lower Swan River estuary, improving ecological linkages, encouraging community involvement, improves water quality in the Swan River Estuary, stabilises the bank from erosion and promotes sustainable recreational use of the foreshore.	\$13,704.72	Coastwest

Recipient	Project	Description	Grant Amt	Grant
Cockburn Coastcare Group	Rehabilitation C.Y. O'Connor Beach	A project that will remove invasive weeds, plant native species, repair boundary fencing, undertake project monitoring and install interpretive signage. Cockburn Coastcare Group, recently formed, will use this project to promote its role in community based coastal management.	\$6,692.36	Coastwest
Shire of Waroona	Preston Beach Foreshore Restoration	The project will protect the coastline and the dune system from manmade erosion and blow outs. This will be conducted through brushing, weed management and community education. Dune brushing will promote stability and discourage 4WD vehicle access.	\$10,000	Coastwest
Shire of Harvey	Binningup Main Beach - building community capacity and protecting coastal values	This project aims to arrest dune erosion through the installation of beach sand fencing and revegetation, which will deter pedestrian access and generate sand deposition. Tree guards will be strategically placed, and jute matting laid on steep slopes.	\$7,451	Coastwest
City of Bunbury and Shires of Capel, Dardanup and Harvey	Capel – Leschenault Coastal Hazard Risk Management and Adaptation Plan	This project will develop a CHRMAP for the City of Bunbury and the Shires of Capel, Dardanup and Harvey. This will: improve understanding of coastal, estuarine and riverine features, processes and hazards; improve understanding of the vulnerability of the coastal zone (including areas influenced by coastal and riverine processes); identify vulnerability trigger points and timeframes for short, medium and long-term risk management and adaption planning; and develop appropriate adaptation options.	\$125,000	Coastal Management Plan Assistance Program
Nature Conservation Margaret River Region	Strategic protection of the iconic Prevelly/ Gnarabup coast	This project will protect the iconic Prevelly/Gnarabup coast, delivering targeted on-ground works including significant seasonal fencing, priority weed management and erosion control coupled with brushing and revegetation.	\$10,055	Coastwest
Undalup Association.	Protecting the Cultural and Ecological Values of Taalinup Boya	A collaborative, community-based project to protect a Wadandi coastal cultural place and rehabilitate a degraded section of coastline near Augusta, with threatened ecological communities and priority vegetation communities. The project engages Wadandi Elders, cultural facilitators, heritage specialists, local government and the wider community to learn and share about the importance of coastal land care projects and the deep and layered connections between cultural and natural heritage management.	\$22,940	Coastwest

Recipient	Project	Description	Grant Amt	Grant
South West and Peel Coastal Management Group.	CoastSwap Support and Summer Activities Program	The grant will support CoastSwap to administer its ongoing effort, and increase its involvement in coastal zone management activities; and to deliver a summer series of coastal and marine related activities for the community in the Peel and South West.	\$10,000	Coastwest
Albany Senior High School	Albany Senior High School Marine Science project	The Albany Senior High School marine science project, running since 2000, involves students collecting valuable baseline data to help sustainably manage the fish and marine invertebrate populations in the Albany region. It will assess shoreline stability at Emu Point, settlement of native flat oysters and monitoring of coastal saltmarsh communities.	\$5,000	Coastwest
Shire of Esperance	Protecting the Duke's Dunes - Coastal Restoration and Sustainable Recreation	The Duke of Orleans Bay Regional Park has experienced increased degradation from high recreational use and unauthorised access. This project will engage with traditional owners, and undertake on-ground restoration actions and education initiatives to promote environmentally responsible public behaviour.	\$39,437	Coastwest
Australian Coastal Society	WA Coastal News	This project will build on and improve the newly established WA Coastal News e-publication. Through engagement with governance, research and community sectors, WA Coastal News will build awareness of the value of the WA coast, increase stewardship through sharing of lessons learned and support collaboration among coastal stakeholders.	\$12,000	Coastwest
