- Figure 11b – Proportionate limits from shared northern boundaries 66
1.1 Citation

This state planning policy is made under section 26 of the Planning and Development Act 2005. This policy is cited as State Planning Policy 7.3 Residential Design Codes Volume 1 or R-Codes Volume 1.

1.2 Purpose of the R-Codes

The purpose of the R-Codes is to provide a comprehensive basis for the control of residential development throughout Western Australia.

1.3 General objectives of the R-Codes Volume 1

The R-Codes Volume 1 have the following objectives.

1.3.1 Objectives for residential development

(a) To provide residential development of an appropriate design for the intended residential purpose, density, context of place and scheme objectives.

(b) To encourage design consideration of the social, environmental and economic opportunities possible from new housing and an appropriate response to local amenity and place.

(c) To encourage design which considers and respects heritage and local culture.

(d) To facilitate residential development which offers future residents the opportunities for better living choices and affordability.

1.3.2 Objectives for the planning governance and development process

(a) To encourage design which is responsive to site, size and geometry of the development site.

(b) To allow variety and diversity as appropriate where it can be demonstrated this better reflects context or scheme objectives.

(c) To ensure clear scope for scheme objectives to influence the assessment of proposals.

(d) To ensure certainty in timely assessment and determination of proposals applied consistently across State and local government.

1.3.3 Application of objectives

In assessing and determining proposals for residential development the decision-maker shall have regard to the above general objectives, and any objectives provided in the R-Codes and the scheme.

1.4 Application of the R-Codes

The R-Codes apply to all residential development throughout Western Australia.

R-Codes Volume 1 and associated tables and figures apply to:

- all single houses;
- all grouped dwellings; and
- multiple dwellings in areas with a coding of less than R40.

For multiple-dwelling developments in areas with a coding of R40 or greater, mixed use development and activity centres refer to R-Codes Volume 2.

Part 7 applies to the local planning framework.

Throughout this document, words written in bold print have a corresponding definition listed in Appendix 1.

1.5 Explanatory guidelines

The Western Australian Planning Commission (WAPC) may prepare more detailed explanatory guidelines on the matters addressed in the R-Codes Volume 1, in consultation with local government and relevant stakeholders, to meet the objectives of the R-Codes Volume 1 and, if prepared, these should be taken into account in the determination of proposals.

The guidelines, which may be amended from time to time provide advice and guidance to assist interpretation and assessment of proposals against the design principles and/or deemed-to-comply provisions of the R-Codes Volume 1.
2.1 R-Codes Volume 1 approval process

2.1.1

The R-Codes Volume 1 approval process is illustrated in the process flowchart below. This process flowchart has been designed as a guide for all decision-makers, developers and proponents using R-Codes Volume 1.

Notes

1. A decision-maker may use an alternative mechanism to development approval to undertake assessment of proposals for single house as per clause 2.2.2.
2. The R-Codes do not require development approval for a single house on a lot greater than 260m² or a lot subject to an approved local development plan or structure plan; although, a scheme may require development approval for a single house irrespective of the requirements of the R-Codes Volume 1 as per clause 2.3.
3. This flowchart does not illustrate the determination review process possible via the State Administrative Tribunal.
Part 2 – R-Codes Volume 1 approval process

2.1 R-Codes Volume 1 approval process

2.1.2
Where development approval is required under a scheme a development application shall be lodged with the relevant decision-maker for assessment and making a determination.

2.1.3
All applications for development approval must provide all necessary details required under the scheme for the decision-maker to assess the proposal, including details where the application complies and does not comply with R-Code Volume 1 requirements.

2.1.4
All residential development is to comply with the requirements of the R-Codes.

Approval under and in accordance with the R-Codes Volume 1 is required if the proposed residential development:

(a) does not satisfy the deemed-to-comply provisions of Part 5 of R-Codes Volume 1 as appropriate; or
(b) proposes to address a design principle of Part 5 of R-Codes Volume 1;

an application for development approval under the scheme shall be made and determined prior to the issuing of a building permit.

Note:
* includes the erection or extension to a single house, ancillary dwelling, outbuilding, external fixture, boundary wall or fence, patio, pergola, veranda, garage, carport or swimming pool – refer to schedule 2, clause 61 (c) and (d) of the Planning and Development (Local Planning Schemes) Regulations 2015 (as amended).

2.2 Single house approval

2.2.1
A proposal for a single house that meets the deemed-to-comply provisions of R-Codes Volume 1 does not require development approval, unless otherwise required by the scheme or clause 2.3.

2.2.2
Where a proposal for a single house*
(a) does not satisfy the deemed-to-comply provisions; and
(b) proposes to address a design principle of Part 5 of R-Codes Volume 1;

an application for development approval under the scheme shall be made and determined prior to the issuing of a building permit.

2.3 Planning approval for single houses on small lots

Development approval is required for the erection of a single house on any lot smaller than 260m², except where the single house complies with a structure plan or local development plan.

2.4 Judging merit of proposals

Where a proposal does not meet deemed-to-comply provision(s) of the R-Codes Volume 1 and addresses design principle(s), the decision-maker is required to exercise judgement to determine the proposal.

Judgement of merit is exercised only for specific element(s) of a proposal which do not satisfy the relevant deemed-to-comply provision(s).

2.5 Exercise of judgement

2.5.1
Subject to clauses 2.5.2 and 2.5.3, the decision-maker is to exercise its judgement to consider the merits of proposals having regard to objectives and balancing these with the consideration of design principles provided in the R-Codes Volume 1.

The decision-maker, in its assessment of a proposal that addresses the design principle(s), should not apply the corresponding deemed-to-comply provision(s).
2.5.2
In making a determination on the suitability of a proposal, the decision-maker shall exercise its judgement, having regard to the following:

(a) any relevant purpose, objectives and provisions of the scheme;
(b) any relevant objectives and provisions of the R-Codes Volume 1;
(c) a provision of a local planning policy adopted by the decision-maker consistent with and pursuant to the R-Codes Volume 1; and
(d) orderly and proper planning.

2.5.3
The decision-maker shall not vary the minimum or average site area per dwelling requirements set out in Table 1 (except as provided in the R-Codes Volume 1 or the scheme).

2.5.4
The decision-maker shall not refuse to grant approval to an application where the application satisfies the deemed-to-comply provisions of the R-Codes Volume 1 and the relevant provisions of the scheme and any relevant local planning policy.

2.5.5
For the purpose of the R-Codes Volume 1, a structure plan, local development plan or local planning policy, will only be a relevant consideration in the exercise of judgement where it is:

(a) specifically sanctioned by a provision of the R-Codes Volume 1;
(b) consistent with the design principles of the R-Codes Volume 1; and
(c) consistent with the objectives of the R-Codes Volume 1.
3.1 Applications for development approval

Where:

(a) development approval is required under the scheme;
(b) the proposed development requires the decision-maker to exercise its judgement in respect to the R-Codes; or
(c) development approval is required by clause 2.3;

an application shall be made to the decision-maker on the appropriate application for development approval form (refer to schedule 2, clause 62 and 86 of the Planning and Development (Local Planning Schemes) Regulations 2015 (as amended).

3.2 Information requirements

3.2.1

Unless otherwise required under the scheme, applications for residential development shall be supported with information about the development, the proposed development, and adjoining properties contained in an existing site analysis plan, a proposed development site plan and drawings in accordance with the application information matrix below.

3.2.2

The application information matrix indicates which information for certain types of applications:

(a) shall be provided to support the application as denoted by "●" in the matrix;
(b) may be required to be provided, at the discretion of the decision-maker, dependent on the nature of an application, as denoted "○" in the matrix; or
(c) may be required for an application which proposes to apply one or more design principle(s), as denoted "☆" in the matrix.

Notwithstanding the information requirements set out in clause 3.2, additional supporting information may be required under certain circumstances as outlined in clause 3.3.

3.2.3

An existing site analysis plan(s) shall be provided at a scale of not less than 1:200 containing the information outlined in the application information matrix relevant to the application type.

3.2.4

A proposed development site plan(s) (which may be combined with the site analysis plan at the discretion of the decision-maker as set out in clause 3.2.3) shall be provided at a scale of not less than 1:200 containing the information requirements, as outlined in the application information matrix relevant to the application type.

3.2.5

A proposed development drawings plan(s) shall be provided as a scale of not less than 1:100 containing the information requirements, as set out in the application information matrix relevant to the application type.

### Part 3 – Accompanying information

#### 3.3 Supporting information requirements

The following additional supporting information shall be provided under certain planning circumstances to enable proper assessment by the decision-maker.

**3.3.1**

Where a component of the proposal proposes to apply one or more design principle(s) of R-Codes Volume 1, it is necessary to assess that component of the design against the relevant design principle(s). Additional supporting information shall include:

(a) identification of all design elements that are not deemed-to-comply; and

(b) written justification as to how the application/proposal meets the design principles and objectives of the R-Codes Volume 1 and any relevant scheme and local planning policy objectives and requirements.

**3.3.2**

Where an existing heritage place or site is listed on any Commonwealth, State or local heritage register, municipal heritage inventory or is otherwise listed under the scheme, and is proposed to be demolished, or its external appearance significantly altered, the following additional information is required to be submitted:

(a) a copy of any heritage assessment or report or conservation plan that has previously been carried out for the place;

(b) photographs of the place or parts of the place proposed to be affected; and

(c) an explanation for the proposal as it relates to the heritage value of the site.

**3.3.3**

Any additional supporting information required under the local planning framework.
Part 4 – Consultation

4.1 Consultation requirement

4.1.1
Where a development proposal is deemed-to-comply in accordance with the R Codes Volume 1, it will not require advertising to adjoining owners and occupiers.

4.1.2
Where an application is made for development approval which presents:

(a) a proposal against one or more design principles of the R-Codes in accordance with the R Codes Volume 1; and

(b) a possible impact on the amenity of adjoining owners and occupiers;

then there may be grounds for the decision-maker to advertise the proposal to these owners and occupiers.

4.1.3
Where the decision-maker is to judge the merits of a proposal and:

(a) the merits of the proposal are a matter of technical opinion; and

(b) the decision-maker is satisfied it will not adversely impact the adjoining residential property or the street,

it is not necessary to seek comment from adjoining owners and occupiers about the proposal, except where specifically required by the scheme or relevant local planning policy.

4.1.4
The provisions of clauses 4.2 and 4.3 apply to provide for adjoining owners and occupiers, who in the opinion of the decision-maker are likely to be affected, to view and comment on the proposal.

4.1.5
Where a matter is advertised for comment the notification should direct adjoining owners and occupiers to focus their comments to the particular design principle(s) that the proposal is addressing.

4.1.6
The decision-maker, upon receipt of any comment(s) from adjoining owners and occupiers, is required to consider and balance comment(s) with its technical opinion when it exercises its judgement to determine the proposal.
Part 4 – Consultation

4.2 Consultation procedure

4.2.1

In the circumstances prescribed in clause 4.1, any owner and occupier of adjoining properties, as identified by the decision-maker, shall be notified of the:

(a) site and general nature of the proposal(s);
(b) nature of the proposal involved;
(c) availability to view details of the proposals; and
(d) due date by which any comments are to be lodged with the decision-maker, being at least fourteen (14) days after date of posting of notification, or as specified within the scheme, and invited to comment on that part of the proposed development that does not meet the deemed-to-comply provisions of the R-Codes Volume 1.

4.2.2

Where no response is received within the time specified from the date of notification, the decision-maker may determine the proposal on its merits and issue its decision.

4.2.3

Where a notification has been satisfactorily carried out (in the opinion of the decision-maker) by the proponent, and comments are provided which accompany the proposal, the decision-maker may consider and determine the proposal without further notification.

The decision-maker shall be satisfied the information provided and comments tendered are accurate and verified subject to the notification of the information in clause 4.2.1 and proof of posting by registered post provided to the decision-maker.

4.2.4

Where the decision-maker considers a proposal to be unacceptable it may determine to refuse the proposal without undertaking neighbour consultation.

4.3 Opportunity to respond

4.3.1

A summary of all comments received in response to an invitation under clause 4.2 shall be provided to the proponent on request and, if so requested, a period of not more than 10 days should be allowed within which the proponent may submit a response to the comments prior to the decision-maker considering the proposal.

In making a determination, the decision-maker shall consider the comments made and the proponent’s response to the comments made on the proposal.
Part 5 – Design elements for all single house(s) and grouped dwellings; and multiple dwellings in areas coded less than R40

5.1 Context

Objectives

(a) To ensure that residential development meets community expectations in regard to appearance, use and density.

(b) To ensure that designs respond to the key natural and built features of the area and respond to the local context in terms of bulk and scale, or in the case of precincts undergoing a transition, will respond to the desired future character as stated in the local planning framework.

(c) To ensure adequate provision of direct sun and ventilation for buildings and to ameliorate the impacts of building bulk, privacy and overshadowing on adjoining properties.

(d) To ensure that open space (private and communal) is provided on site and:
   - landscaped to establish streetscapes;
   - provide a balanced setting and relationship to buildings; and
   - provide privacy, direct sun and recreational opportunities.

(e) To ensure that development and design is appropriately scaled, particularly in respect to bulk and height, and is sympathetic to the scale of the street and surrounding buildings, or in precincts undergoing a transition, development achieves the desired future character of the area identified in local planning framework.
Design principles

**Development** demonstrates compliance with the following **design principles** (P)

<table>
<thead>
<tr>
<th>5.1.1 Site area</th>
</tr>
</thead>
<tbody>
<tr>
<td>P1.1 <strong>Development</strong> of the type and density indicated by the density code designated in the scheme.</td>
</tr>
<tr>
<td>P1.2 The WAPC may approve the creation of a <strong>lot, survey strata lot or strata lot</strong> of a lesser minimum and/or average <strong>site area</strong> than that specified in <strong>Table 1</strong>, and the WAPC in consultation with the local government may approve the creation of a survey strata lot or strata lot for a <strong>single house</strong> or a <strong>grouped dwelling</strong> of a lesser minimum site area than that specified in <strong>Table 1</strong> provided that the proposed variation would be no more than five per cent less in area than that specified in <strong>Table 1</strong>, and:</td>
</tr>
<tr>
<td>• facilitate the protection of an environmental or heritage feature;</td>
</tr>
<tr>
<td>• facilitate the retention of a significant element that contributes toward an existing streetscape worthy of retention;</td>
</tr>
<tr>
<td>• facilitate the <strong>development</strong> of lots with separate and sufficient <strong>frontage</strong> to more than one public <strong>street</strong>;</td>
</tr>
<tr>
<td>• overcome a special or unusual limitation on the development of the land imposed by its size, shape or other feature;</td>
</tr>
<tr>
<td>• allow land to be developed with housing of the same type and form as land in the vicinity and which would not otherwise be able to be developed; or</td>
</tr>
<tr>
<td>• achieve specific objectives of the <strong>local planning framework</strong>.</td>
</tr>
<tr>
<td>P1.3 The WAPC, in consultation with the local government, may approve the creation of a <strong>survey strata lot or strata lot</strong> for an existing authorised <strong>grouped dwelling</strong> or <strong>multiple dwelling development</strong> of a lesser minimum and average <strong>site area</strong> than that specified in <strong>Table 1</strong>, where, in the opinion of the WAPC or the local government, the development on the resulting survey strata or strata lots is consistent with the objectives of the relevant design elements of the R-Codes, and the orderly and proper planning of the locality.</td>
</tr>
</tbody>
</table>

Deemed-to-comply

**Development** satisfies the following **deemed-to-comply** requirements (C)

<table>
<thead>
<tr>
<th>5.1 Context</th>
</tr>
</thead>
<tbody>
<tr>
<td>C1.1 <strong>Development</strong> which complies with the <strong>dwelling</strong> type and <strong>site area</strong> requirements set out in <strong>Table 1</strong> and the following provisions.</td>
</tr>
<tr>
<td>C1.2 The minimum <strong>site area</strong> set out in <strong>Table 1</strong> is calculated as follows:</td>
</tr>
<tr>
<td>i. in the case of a <strong>single house</strong>, the area of a <strong>green title lot</strong> or <strong>survey-strata lot</strong>;</td>
</tr>
<tr>
<td>ii. in the case of a <strong>grouped dwelling</strong>, the area of land occupied by the <strong>dwelling</strong> itself, together with all other areas whether contiguous or not, designated for the exclusive use of the occupants of that dwelling; or</td>
</tr>
<tr>
<td>iii. in the case of <strong>multiple dwellings</strong> in areas with a coding of less than R40, the total area of the lot divided by the number of dwellings.</td>
</tr>
<tr>
<td>C1.3 For the purposes of assessing compliance of a proposed <strong>development</strong> with the minimum and average <strong>site area</strong> set out in <strong>Table 1</strong>, the following adjustments for the purposes of calculating the minimum and average site area shall apply:</td>
</tr>
<tr>
<td>i. in the case of a lot with a corner truncation, up to a maximum of 20m² of that truncation shall be added to the area of the adjoining <strong>lot, survey strata lot or strata lot</strong> as the case may be (refer <strong>Figure 1a</strong>); or</td>
</tr>
<tr>
<td>ii. in the case of a rear battleaxe site, the <strong>site area</strong> is inclusive of the access leg provided that the area of the access leg contributes no more than 20 per cent of the site area as required by <strong>Table 1</strong>. Where the <strong>battleaxe lot</strong> (excluding the access leg) adjoins or abuts a <strong>right-of-way</strong> or reserve for <strong>open space</strong>, pedestrian access, school site or equivalent, half the width (up to a maximum depth of 2m) may be added to the site area (refer <strong>Figure 1b</strong>).</td>
</tr>
</tbody>
</table>
Part 5 – Design elements for all single house(s) and grouped dwellings; and multiple dwellings in areas coded less than R40

5.1 Context

5.2 Streetscape

5.3 Site planning and design

5.4 Building design

5.5 Special purpose dwellings

Design principles

Development demonstrates compliance with the following design principles (P)

Deemed-to-comply

Development satisfies the following deemed-to-comply requirements (C)

5.1.2 Street setback

P2.1 Buildings set back from street boundaries an appropriate distance to ensure they:
- contribute to, and are consistent with, an established streetscape;
- provide adequate privacy and open space for dwellings;
- accommodate site planning requirements such as parking, landscape and utilities; and
- allow safety clearances for easements for essential service corridors.

P2.2 Buildings mass and form that:
- uses design features to affect the size and scale of the building;
- uses appropriate minor projections that do not detract from the character of the streetscape;
- minimises the proportion of the façade at ground level taken up by building services, vehicle entries and parking supply, blank walls, servicing infrastructure access and meters and the like; and
- positively contributes to the prevailing or future development context and streetscape as outlined in the local planning framework.

C1.4 Subject to clause 5.1.1 C1.3 only, the following variations to the minimum and average site area set out in Table 1 may be made:

i. for the purposes of an aged or dependent persons’ dwelling or a single bedroom dwelling, the site area may be reduced by up to one third, in accordance with clauses 5.5.2 and 5.5.3 which shall only be applied where development is proposed;

ii. in the case of a single house, grouped dwelling or multiple dwelling; the area of a lot, survey strata lot or strata lot approved by the WAPC, or

iii. the area of any existing lot, survey strata lot or strata lot with permanent legal access to a public road, notwithstanding that it is less than that required in Table 1.

C2.1 Buildings set back from the primary street boundary:

i. in accordance with Table 1;

ii. corresponding to the average of the setback of existing dwellings on each adjacent property fronting the same street;

iii. reduced by up to 50 per cent provided that the area of any building, including a carport or garage, intruding into the setback area is compensated for by at least an equal area of open space between the setback line and line drawn parallel to it at twice the setback distance (refer Figure 2a, 2b and 2c);

iv. in the case of areas coded R15 or higher, where:
- a grouped dwelling has its main frontage to a secondary street;
- a single house results from subdivision of an original corner lot and has its frontage to the original secondary street; or
- a single house or grouped dwelling (where that grouped dwelling is not adjacent to the primary street), has its main frontage to a communal street, right-of-way or shared pedestrian or vehicle access way;
### Design principles

**Development** demonstrates compliance with the following **design principles** (P)

- the street setback may be reduced to 2.5m, or 1.5m to a porch, verandah, balcony or the equivalent (refer Figure 2b and 2d); and
- to provide for registered easements for essential services.

**Deemed-to-comply**

**Development** satisfies the following **deemed-to-comply** requirements (C)

- Buildings set back from the secondary street boundary in accordance with Table 1.
- Buildings set back from the corner truncation boundary in accordance with the secondary street setback in Table 1.
- A porch, balcony, verandah, chimney or the equivalent may (subject to the Building Code of Australia) project not more than 1m into the street setback area. Projections up to 1m are not subject to a compensating area, provided that the total of such projections does not exceed 20 per cent of the building façade as viewed from the street (refer Figure 2b). Projections greater than 1m and exceeding 20 per cent of the building façade at any level are subject to an equivalent open area under clause 5.1.2 C2.1iii.

### 5.1.3 Lot boundary setback

**P3.1** Buildings set back from lot boundaries or adjacent buildings on the same lot so as to:
- reduce impacts of building bulk on adjoining properties;
- provide adequate direct sun and ventilation to the building and open spaces on the site and adjoining properties; and
- minimise the extent of overlooking and resultant loss of privacy on adjoining properties.

**P3.2** Buildings built up to boundaries (other than the street boundary) where this:
- makes more effective use of space for enhanced privacy for the occupant/s or outdoor living areas;
- does not compromise the design principle contained in clause 5.1.3 P3.1;
- does not have any adverse impact on the amenity of the adjoining property;

**C3.1** Buildings which are set back in accordance with the following provisions, subject to any additional measures in other elements of the R-Codes:
- buildings set back from lot boundaries in accordance with Table 1, Tables 2a and 2b (refer to Figure Series 3 and 4);
- unenclosed areas accessible for use as outdoor living areas, elevated 0.5m or more above natural ground level, set back as though they were major openings to habitable rooms with a wall height of 2.4m above their floor level;
- separate single house, grouped or multiple dwelling buildings on the same site, or facing portions of the same multiple dwelling building, set back from each other as though there were a boundary between them;
- minor projections such as a chimney, other architectural feature or an eaves overhang not projecting more than 0.75m into a setback area; and
### Design principles

*Development* demonstrates compliance with the following *design principles* (P):

- ensures direct sun to **major openings** to **habitable rooms** and outdoor living areas for **adjoining properties** is not restricted; and
- positively contributes to the prevailing or future development context and streetscape as outlined in the *local planning framework*.

### Deemed-to-comply

*Development* satisfies the following *deemed-to-comply* requirements (C):

v. the stated setback distances may be reduced by half the width of an adjoining **right-of-way**, pedestrian access way, **communal street** or **battleaxe lot** access leg, to a maximum reduction of 2m (refer to figures 2b and 4f).

C3.2 **Walls** may be built up to a **lot boundary** behind the **street setback** (specified in **Table 1** and in accordance with clauses 5.1.2, 5.2.1 and 5.2.2), within the following limits and subject to the overshadowing provisions of clause 5.4.2 and **Figure Series 11**:

i. where the **wall** abuts an existing or simultaneously constructed wall of similar or greater dimension;

ii. in areas coded R20 and R25, **walls** not higher than 3.5m with an average of 3m or less, up to a maximum length of the greater of 9m or one-third the length of the balance of the **lot boundary** behind the front **setback**, to one side boundary only;

iii. in areas coded R30 and higher, walls not higher than 3.5m with an average of 3m or less, for two-thirds the length of the balance of the **lot boundary** behind the front **setback**, to one side boundary only; or

iv. where both the subject **site** and the affected adjoining **site** are created in a plan of subdivision submitted concurrently with the **development** application.

C3.3 Where the subject site and an affected adjoining site are subject to a different density codes, in accordance with clause 5.1.3 C3.2, the length and height of the boundary **wall** on the boundary between them is determined by reference to the lower density code.

Note: The term ‘up to a **lot boundary**’ means a **wall**, on or less than 600mm from any **lot boundary** (green title or survey strata lot), other than a **street boundary**.
### Part 5 – Design elements for all single house(s) and grouped dwellings; and multiple dwellings in areas coded less than R40

#### 5.1 Context

</thead>
<tbody>
<tr>
<td>Development <em>demonstrates</em> compliance with the following <strong>design principles</strong> (P)</td>
<td>Development <em>satisfies</em> the following <strong>deemed-to-comply</strong> requirements (C)</td>
</tr>
</tbody>
</table>

#### 5.1.4 Open space

<table>
<thead>
<tr>
<th>P4</th>
<th><strong>Development</strong> incorporates suitable <strong>open space</strong> for its context to:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• reflect the existing and/or desired streetscape character or as outlined under the <strong>local planning framework</strong>;</td>
</tr>
<tr>
<td></td>
<td>• provide access to natural sunlight for the <strong>dwelling</strong>;</td>
</tr>
<tr>
<td></td>
<td>• reduce <strong>building</strong> bulk on the site, consistent with the expectations of the applicable density code and/or as outlined in the <strong>local planning framework</strong>;</td>
</tr>
<tr>
<td></td>
<td>• provide an attractive setting for the buildings, <strong>landscape</strong>, vegetation and streetscape;</td>
</tr>
<tr>
<td></td>
<td>• provide opportunities for residents to use space external to the dwelling for outdoor pursuits and access within/around the <strong>site</strong>, and</td>
</tr>
<tr>
<td></td>
<td>• provide space for <strong>external fixtures</strong> and essential facilities.</td>
</tr>
</tbody>
</table>

| C4 | **Open space** provided in accordance with Table 1 (refer Figure Series 6). The **site** of the **grouped dwelling**, for the purpose of calculating the open space requirement, shall include the area allocated for the exclusive use of that **dwelling** and the proportionate share of any associated **common property**. |

#### 5.1.5 Communal open space

| P5.1 | **Communal open space** associated with **grouped dwellings** is provided for residents’ exclusive use. |
| P5.2 | The location and function of **communal open space** provides privacy to users and surrounding **dwellings**. |

| C5 | Where **communal open space** is provided as **common property** in a **grouped dwelling development**, the **open space** required for any grouped dwelling having legal and direct physical access to that open space may be reduced by up to 20 per cent of the required open space area provided that: |
|    | i. the aggregate of deducted area does not exceed the area of communal open space; and |
|    | ii. the **outdoor living area** for any **dwelling** is not reduced in area. |

#### 5.1.6 Building height

| P6 | **Building height** that creates no adverse impact on the amenity of adjoining properties or the streetscape, including road reserves and public open space reserves; and where appropriate maintains: |
|    | • adequate access to direct sun into **buildings** and appurtenant **open spaces**; |
|    | • adequate daylight to **major openings** into **habitable rooms**; and |
|    | • access to views of significance. |

| C6 | **Buildings** which comply with Table 3 for category B area buildings, except where stated otherwise in the **scheme**, the relevant **local planning policy**, **structure plan** or **local development plan** (refer Figure Series 7). |
5.2 Streetscape

Objectives
(a) To contribute towards the character of streetscapes including their views and vistas and provides security for occupants and passers-by, a landscape to ensure adequate shade, privacy and open space for occupants, and an attractive setting for the collection of buildings.

<table>
<thead>
<tr>
<th>Design principles</th>
<th>Deemed-to-comply</th>

<td><strong>Development</strong> satisfies the following <strong>deemed-to-comply</strong> requirements (C)</td>
</tr>
</tbody>
</table>

### 5.2.1 Setback of garages and carports

**P1** The setting back of carports and garages to maintain clear sight lines along the street and not to detract from the streetscape or appearance of dwellings; or obstruct views of dwellings from the street and vice versa.

**C1.1** Garages set back 4.5m from the primary street except that the setback may be reduced:

i. in accordance with Figure 8b where the garage adjoins a dwelling provided the garage is at least 0.5m behind the dwelling alignment (excluding any porch, verandah or balcony); or.

ii. to 3m where the garage allows vehicles to be parked parallel to the street. The wall parallel to the street must include openings.

**C1.2** Carports set back from the primary street in accordance with clause 5.1.2 C2.1.

**C1.3** Garages and carports built up to the boundary abutting a private street or right-of-way which is not the primary or secondary street boundary for the dwelling, with manoeuvring space of at least 6m, located immediately in front of the opening to the garage or carport and permanently available.

**C1.4** Garages and carports set back 1.5m from a secondary street.

**C1.5** Carports within the street setback area in accordance with clause 5.1.2 C2.1ii provided that the width of the carport does not exceed 50 per cent of the frontage at the building line and the construction allows an unobstructed view between the dwelling and the street, right-of-way or equivalent (refer to Figure 8a).
### Part 5 – Design elements for all single house(s) and grouped dwellings; and multiple dwellings in areas coded less than R40

#### Design principles

**Development** demonstrates compliance with the following **design principles** (P)

<table>
<thead>
<tr>
<th>Design principle</th>
<th>Deemed-to-comply</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>5.2.2 Garage width</strong></td>
<td><strong>5.2.2 Garage width</strong></td>
</tr>
<tr>
<td>P2 Visual connectivity between the <strong>dwelling</strong> and the streetscape should be maintained and the effect of the <strong>garage</strong> door on the streetscape should be minimised whereby the streetscape is not dominated by garage doors.</td>
<td>C2 Where a <strong>garage</strong> is located in front or within 1m of the <strong>building</strong>, a garage door and its supporting structures (or a garage <strong>wall</strong> where a garage is aligned parallel to the <strong>street</strong>) facing the <strong>primary street</strong> is not to occupy more than 50 per cent of the <strong>frontage</strong> at the setback line as viewed from the street. This may be increased to 60 per cent where an upper floor or <strong>balcony</strong> extends for the full width of the garage and the entrance to the <strong>dwelling</strong> is clearly visible from the primary street (refer to <strong>Figure 8c</strong>).</td>
</tr>
</tbody>
</table>

| **5.2.3 Street surveillance** | **5.2.3 Street surveillance** |
| P3 **Buildings** designed to provide for surveillance (actual or perceived) between individual **dwelling(s)** and the **street** and between common areas and the street, which minimise opportunities for concealment and entrapment. | C3.1 The street elevation(s) of the **dwelling** to address the **street** with clearly definable entry points visible and accessed from the street. C3.2 At least one **major opening** from a **habitable room** of the **dwelling** faces the **street** and the pedestrian or vehicular approach to the dwelling. C3.3 For **battleaxe lots** or sites with internal **driveway** access, at least one major opening from a habitable room of the **dwelling** faces the approach to the dwelling. |

| **5.2.4 Street walls and fences** | **5.2.4 Street walls and fences** |
| P4 Front fences are low or restricted in height to permit surveillance (as per Clause 5.2.3) and enhance streetscape (as per clause 5.1.2), with appropriate consideration to the need: min adverse traffic impacts where the **street** is designated as a primary or district distributor or integrator arterial; and for necessary privacy or noise screening for **outdoor living areas** where the **street** is designated as a primary or district distributor or integrator arterial. | C4 Front fences within the **primary street setback area** that are **visually permeable** above 1.2m of **natural ground level**, measured from the primary street side of the front fence. |
### Part 5 – Design elements for all single house(s) and grouped dwellings; and multiple dwellings in areas coded less than R40

</tr>
</tbody>
</table>

#### 5.2.5 Sight lines

| P5 Unobstructed sight lines provided at vehicle access points to ensure safety and visibility along vehicle access ways, streets, rights-of-way, communal streets, crossovers, and footpaths. | C5 Walls, fences and other structures truncated or reduced to no higher than 0.75m within 1.5m of where walls, fences, other structures adjoin vehicle access points where a driveway meets a public street and where two streets intersect (refer Figure Series 9). |

#### 5.2.6 Appearance of retained dwelling

| P6 Dwellings retained as part of a grouped or multiple dwelling development, dwelling extension or redevelopment are to: | C6 Where an existing dwelling is retained as part of a grouped dwelling development, the appearance of the retained dwelling is upgraded externally to an equivalent maintenance standard of the new (or the rest of) the development. |
| - enhance the streetscape appearance of the existing dwelling(s) retained; or | |
| - complement established or future built form in the locality as specified within the relevant local planning framework. | |

State Planning Policy 7.3 Residential Design Codes Volume 1
5.3 Site planning and design

Objectives

(a) Landscape design should optimise function, useability, privacy and social opportunity, equitable access, respect neighbours’ amenity and provide for practical establishment and maintenance.
(b) To ensure access to housing provides for security, safety, amenity and legibility to on-site car parking areas and footpaths for residents and visitors.
(c) To ensure each development makes a contribution to a streetscape by respecting the natural topography for each site, adjoining properties and the amenity of the locality.
(d) To reduce the economic, environmental and social impacts associated with site works to facilitate housing development (e.g. via soil disturbance, groundwater impact and water use for dust suppression).

Design principles

Development demonstrates compliance with the following design principles (P)

5.3.1 Outdoor living areas

P1.1 Outdoor living areas which provide spaces:
- capable of use in conjunction with a habitable room of the dwelling;
- open to winter sun and ventilation; and
- optimise use of the northern aspect of the site.

P1.2 Balconies or equivalent outdoor living areas capable of use in conjunction with a habitable room of each dwelling, and if possible, open to winter sun.

Deemed-to-comply

Development satisfies the following deemed-to-comply requirements (C)

C1.1 An outdoor living area to be provided:
- in accordance with Table 1;
- behind the street setback area;
- directly accessible from a habitable room of the dwelling;
- with a minimum length and width dimension of 4m; and
- to have at least two-thirds of the required area without permanent roof cover.

C1.2 Each multiple dwelling is provided with at least one balcony or the equivalent, opening directly from a habitable room and with a minimum area of 10m² and minimum dimension of 2.4m.
Part 5 – Design elements for all single house(s) and grouped dwellings; and multiple dwellings in areas coded less than R40

5.3 Site planning and design

### 5.3.2 Landscaping

**P2** Landscaping of grouped and multiple dwelling common property and communal open spaces that:
- contribute to the appearance and amenity of the development for the residents;
- contribute to the streetscape;
- enhance security and safety for residents;
- provide for microclimate; and
- retain existing trees to maintain a local sense of place.

**C2** Landscaping of grouped and multiple dwelling common property and communal open spaces in accordance with the following:

1. the street setback area developed without car parking, except for visitors’ bays, and with a maximum of 50 per cent hard surface;
2. separate pedestrian paths providing wheelchair accessibility connecting entries to all buildings with the public footpath and car parking areas;
3. landscaping between each six consecutive external car parking spaces to include shade trees;
4. lighting to pathways, and communal open space and car parking areas;
5. bin storage areas conveniently located and screened from view;
6. trees which are greater than 3m in height shall be retained, in communal open space areas which are provided for the development;
7. adequate sight lines for pedestrians and vehicles;
8. clear line of sight between areas designated as communal open space and at least two habitable room windows;
9. clothes drying areas which are secure and screened from view; and
10. unroofed visitors’ car parking spaces to be effectively screened from the street.
Part 5 – Design elements for all single house(s) and grouped dwellings; and multiple dwellings in areas coded less than R40

5.3 Site planning and design

5.3.3 Parking

**Design principles**

*Development* demonstrates compliance with the following *design principles* *(P)*

**P3.1** Adequate car parking is to be provided on-site in accordance with projected need related to:
- the type, number and size of *dwellings*;
- the availability of on-street and other off-street parking; and
- the proximity of the proposed *development* to public transport and other facilities.

**P3.2** Consideration may be given to a reduction in the minimum number of on-site car parking spaces for *grouped* and *multiple dwellings* provided:
- available *street* parking in the vicinity is controlled by the local government; and
- the *decision-maker* is of the opinion that a sufficient equivalent number of on-street spaces are available near the *development*.

**P3.3** Some or all of the required car parking spaces located off-site, provided that these spaces will meet the following:
  i. the off-site car parking area is sufficiently close to the *development* and convenient for use by residents and/or visitors;
  ii. any increase in the number of *dwellings* or possible *plot ratio* being matched by a corresponding increase in the aggregate number of car parking spaces;
  iii. permanent legal right of access being established for all users and occupiers of dwellings for which the respective car parking space is to be provided; and
  iv. where off-site car parking is shared with other uses, the total aggregate parking requirement for all such uses, as required by the R-Codes and the *scheme* being provided. The number of required spaces may only be reduced by up to 15 per cent where the non-residential parking occurs substantially between 9 am and 5 pm on weekdays.

**Deemed-to-comply**

*Development* satisfies the following *deemed-to-comply* requirements *(C)*

**C3.1** The following minimum number of on-site car parking spaces is to be provided for each *single house, grouped dwelling* and *special purpose dwelling* comprising the following number of bedrooms:

<table>
<thead>
<tr>
<th>Type of dwelling</th>
<th>Car parking spaces</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Location A</td>
</tr>
<tr>
<td>1 bedroom dwelling</td>
<td>1</td>
</tr>
<tr>
<td>2 + bedroom dwelling</td>
<td>1</td>
</tr>
<tr>
<td>Aged persons’ dwelling</td>
<td>1</td>
</tr>
<tr>
<td>Ancillary dwelling</td>
<td>nil</td>
</tr>
</tbody>
</table>

A = within:
- 800m of a train station on a *high frequency* rail *route*, measured in a straight line from the pedestrian entry to the train station platform to any part of a *lot*; or
- 250m of a *high frequency* bus *route*, measured in a straight line from along any part of the bus route to any part of a lot.

B = not within the distances outlined in A above.

**C3.2** On-site visitors car parking spaces for *grouped* and *multiple dwelling developments* provided at a rate of one space for each four *dwellings*, or part thereof in excess of four dwellings, served by a common access.

**C3.3** The following minimum number of on-site car parking spaces is provided for each *multiple dwelling*.

<table>
<thead>
<tr>
<th>Plot ratio area and type of multiple dwelling</th>
<th>Car parking spaces</th>
</tr>
</thead>
<tbody>
<tr>

| **5.3.5 Vehicular access** |
| **P5.1** Vehicular access provided for each development site to provide: |
| • vehicle access safety; |
| • reduced impact of access points on the streetscape; |
| • legible access; |
| • pedestrian safety; |
| • minimal crossovers; and |
| • high quality landscaping features. |
| **C5.1** Access to on-site car parking spaces to be provided: |
| • where available, from a right-of-way available for lawful use to access the relevant lot and which is adequately paved and drained from the property boundary to a constructed street; |
| • from a secondary street where no right-of-way exists; or |
| • from the primary street frontage where no secondary street or right-of-way exists. |
| **C5.2** Driveways to primary or secondary street provided as follows: |
| • driveways serving four dwellings or less not narrower than 3m at the street boundary; |
| • no driveway wider than 6m at the street boundary and driveways in aggregate no greater than 9m for any one property. |
| **C5.3** Driveways shall be: |
| • no closer than 0.5m from a side lot boundary or street pole; |
| • no closer than 6m to a street corner as required under AS2890.1 Parking Facilities: Off street Parking (as amended); |
Part 5 – Design elements for all single house(s) and grouped dwellings; and multiple dwellings in areas coded less than R40

### Design principles

**Development** demonstrates compliance with the following **design principles** (P):

- aligned at right angles to the street alignment;
- located so as to avoid street trees, or, where this is unavoidable, the street trees replaced at the applicant’s expense or re-planting arrangements to be approved by the decision-maker; and
- adequately paved and drained.

### Deemed-to-comply

**Development** satisfies the following **deemed-to-comply** requirements (C):

- Driveways designed for two way access to allow for vehicles to enter the street in forward gear where:
  - the driveway serves five or more dwellings;
  - the distance from an on-site car parking space to the street is 15m or more; or
  - the street to which it connects is designated as a primary distributor or integrator arterial road.

- Driveways for multiple and grouped dwellings where the number of dwellings is five or more, shall be:
  - a minimum width of 4m; and
  - designed to allow vehicles to pass in opposite directions at one or more points.
### Part 5 – Design elements for all single house(s) and grouped dwellings; and multiple dwellings in areas coded less than R40

#### Design principles

*Development* demonstrates compliance with the following *design principles* (P)

| **5.3.8 Retaining walls** | |
| P8 Retaining walls that result in land which can be effectively used for the benefit of residents and do not detrimentally affect adjoining properties and are designed, engineered and landscaped having due regard to clauses 5.3.7 and 5.4.1. | C8 Retaining walls greater than 0.5m in height set back from lot boundaries in accordance with the setback provisions of Table 1. Retaining walls 0.5m or less in height may be located up to the lot boundary. |

| **5.3.9 Stormwater management** | |
| P9.1 Stormwater is managed on-site wherever possible either by containment or infiltration, as permitted by the soil and other site conditions and which reduce the export of nutrients and sediments from the site into waterways or otherwise appropriately managed prior to off-site discharge. | C9 All water draining from roofs, driveways, communal streets and other impermeable surfaces shall be directed to garden areas, sumps or rainwater tanks within the development site where climatic and soil conditions allow for the effective retention of stormwater on-site. |
| P9.2 Encourage the recovery and re-use of stormwater for non-potable water applications using integrated design and fit-for-purpose water applications. | |
5.4 Building design

Objectives

(a) To design buildings and landscape to minimise adverse impact on the privacy of adjoining dwellings and private open space. (c) To maintain the amenity of streetscapes and views along the street by ensuring that associated outbuildings and other fixtures attached to buildings do not detract from the streetscape and are not visually intrusive to neighbouring properties or adjoining public spaces.

(b) To optimise comfortable living, access to sunlight and solar energy to facilitate sustainable housing development with particular regard for place and local conditions.

5.4.1 Visual privacy

P1.1 Minimal direct overlooking of active habitable spaces and outdoor living areas of adjacent dwellings achieved through:

- building layout and location;
- design of major openings;
- landscape screening of outdoor active habitable spaces; and/or
- location of screening devices.

P1.2 Maximum visual privacy to side and rear boundaries through measures such as:

- offsetting the location of ground and first floor windows so that viewing is oblique rather than direct;
- building to the boundary where appropriate;
- setting back the first floor from the side boundary;
- providing higher or opaque and fixed windows; and/or
- screen devices (including landscaping, fencing, obscure glazing, timber screens, external blinds, window hoods and shutters).

Deemed-to-comply

Development satisfies the following deemed-to-comply requirements (C)

C1.1 Major openings and unenclosed outdoor active habitable spaces, which have a floor level of more than 0.5m above natural ground level and overlook any part of any other residential property behind its street setback line are:

i. set back, in direct line of sight within the cone of vision, from the lot boundary, a minimum distance as prescribed in the table below (refer Figure Series 10):

<table>
<thead>
<tr>
<th>Types of habitable rooms/active habitable spaces</th>
<th>Location</th>
</tr>
</thead>
<tbody>
<tr>
<td>Major openings to bedrooms and studies</td>
<td>4.5m</td>
</tr>
<tr>
<td>Major openings to habitable rooms other than bedrooms and studies</td>
<td>6m</td>
</tr>
<tr>
<td>Unenclosed outdoor active habitable spaces</td>
<td>7.5m</td>
</tr>
</tbody>
</table>

or;

ii. are provided with permanent screening to restrict views within the cone of vision from any major opening or an unenclosed outdoor active habitable space.

<tr>
<td>P2.2 Development designed to protect solar access for neighbouring properties taking account the potential to overshadow existing:</td>
<td></td>
</tr>
<tr>
<td>• outdoor living areas;</td>
<td></td>
</tr>
<tr>
<td>• north facing major openings to habitable rooms, within 15 degrees of north in each direction; or</td>
<td></td>
</tr>
<tr>
<td>• roof mounted solar collectors.</td>
<td></td>
</tr>
<tr>
<td>C.2.1 Notwithstanding the lot boundary setbacks in clause 5.1.3, development in climatic zones 4, 5 and 6 of the State shall be so designed that its shadow cast at midday, 21 June onto any other adjoining property does not exceed the following limits:</td>
<td></td>
</tr>
<tr>
<td>• on adjoining properties coded R25 and lower – 25 per cent of the site area;</td>
<td></td>
</tr>
<tr>
<td>• on adjoining properties coded R30 to R40 inclusive – 35 per cent of the site area;</td>
<td></td>
</tr>
<tr>
<td>• on adjoining properties coded higher than R40 – 50 per cent of the site area.</td>
<td></td>
</tr>
<tr>
<td>C.2.2 Where a development site shares its southern boundary with a lot, and that lot is bound to the north by another lot(s), the limit of shading for the development site set out in clause 5.4.2 C.2.1 shall be reduced proportionate to the percentage of the affected property's northern boundary that the development site abuts (refer to Figure 11b).</td>
<td></td>
</tr>
<tr>
<td>Note: With regard to clause 5.4.2 C.2.1 site area refers to the surface of the adjoining lot and is measured without regard to any building on it but taking into account its natural ground levels.</td>
<td></td>
</tr>
</tbody>
</table>
### Design principles

**Development** demonstrates compliance with the following design principles *(P)*

#### 5.4.3 Outbuildings

**P3** Outbuildings that do not detract from the streetscape or the visual amenity of residents or neighbouring properties.

#### Deemed-to-comply

**Development** satisfies the following deemed-to-comply requirements *(C)*

**C3** Outbuildings that:
- are not attached to a dwelling;
- are non-habitable;
- collectively do not exceed 60m² in area or 10 per cent in aggregate of the *site area*, whichever is the lesser;
- do not exceed a *wall height* of 2.4m;
- do not exceed ridge height of 4.2m;
- are not within the *primary* or *secondary street setback area*;
- do not reduce the amount of *open space* required in Table 1; and
- are set back in accordance with Tables 2a and 2b.

### 5.4.4 External fixtures, utilities and facilities

**P4.1** Solar collectors, aerials, antennas, satellite dishes, pipes and external fixtures integrated into the design of the building to not be visually obtrusive when viewed from the street and to protect the visual amenity of surrounding properties.

**P4.2** External location of storeroom, rubbish collection/bin areas, and clothes drying areas where these are:
- convenient for residents;
- rubbish collection areas which can be accessed by service vehicles;
- screened from view; and
- able to be secured and managed.

**C4.1** Solar collectors installed on the roof or other parts of buildings.

**C4.2** Television aerials of the standard type, essential plumbing vent pipes above the roof line and external roof water down pipes.

**C4.3** Other external fixtures provided they are:
- not visible from the *primary street*;
- are designed to integrate with the building; or
- are located so as not to be visually obtrusive.

**C4.4** Antennas, satellite dishes and the like not visible from any *primary* and *secondary street*. 
Part 5 – Design elements for all single house(s) and grouped dwellings; and multiple dwellings in areas coded less than R40

</tbody>
</table>
5.5 Special purpose dwellings

Objectives

(a) To ensure residential development is provided to accommodate people with or without special needs.

(b) To provide ancillary accommodation which is independent or semi-independent to residents of the single house.

(c) To ensure that dwellings for the aged and people with special needs can be provided within residential areas.

(d) To provide opportunities for affordable housing.

Design principles

**Development** demonstrates compliance with the following design principles (P)

5.5.1 Ancillary dwellings

P1 Ancillary dwelling for people who live either independently or semi-dependently to the residents of the single house, sharing some site facilities and services and without compromising the amenity of surrounding properties.

Deemed-to-comply

**Development** satisfies the following deemed-to-comply requirements (C)

C1 Ancillary dwelling associated with a single house and on the same lot where:

i. the lot is not less than 450m² in area;

ii. there is a maximum plot ratio area of 70m²;

iii. parking provided in accordance with clause 5.3.3 C3.1; and

iv. complies with all other R-Code provisions, only as they apply to single houses, with the exception of clauses:

(a) 5.1.1 Site area;

(b) 5.2.3 Street surveillance (except where located on a lot with secondary street or right-of-way access); and

(c) 5.3.1 Outdoor living areas.
### Design principles

**Development** demonstrates compliance with the following design principles (P)

#### 5.5.2 Aged or dependent persons’ dwellings

**P2** Aged or dependent persons’ dwellings for the housing of aged or dependent persons designed to meet the needs of aged or dependent persons; and

- reduces car dependence, i.e. is located in close proximity to public transport and services;
- has due regard to the topography of the locality in which the site is located in respect to access and mobility;
- has due regard to the availability of community facilities including parks and open space;
- does not impinge upon neighbour amenity; and
- responds to a demand for aged or dependent persons’ accommodation in the locality which is recognised in the local planning framework.

### Deemed-to-comply

**Development** satisfies the following deemed-to-comply requirements (C)

C.2.1 **Aged or dependent persons’ dwellings** for the housing of aged or dependent persons shall comply with the following:

- a maximum **plot ratio area** of:
  - in the case of single houses or grouped dwellings – 100m²; or
  - in the case of multiple dwellings – 80m²;
- a minimum number of five dwellings within any single development;
- visitors car parking spaces at the rate of one per four dwellings, with a minimum of one space;
- the first visitors car space being a wheelchair accessible car parking space and a minimum width of 3.8m in accordance with AS4299, clause 3.7.1 (as amended);
- an **outdoor living area** in accordance with the requirements of clause 5.3.1 but reducing the area required by Table 1 by one-third; and
- comply with all other provisions of Table 1 and Part 5 as relevant.

C.2.2 All ground floor units, with a preference for all dwellings, to incorporate, as a minimum, the following:

- an accessible path of travel from the street frontage, car parking area or drop-off point in accordance with the requirements of AS4299 clause 3.3.2 (as amended); and
- level entry to the front entry door with preferably all external doors having level entries (diagrams, figure C1 of AS4299 [as amended]).

C.2.3 All dwellings to incorporate, as a minimum, the following:

- all external and internal doors to provide a minimum 820mm clear opening. (AS4299 clause 4.3.3 [as amended]);
- internal corridors to be a minimum 1000mm wide, width to be increased to a minimum of 1200mm in corridors with openings on side walls,
### Design principles

**Development** demonstrates compliance with the following design principles (P):

- a visitable toilet (AS4299, clause 1.4.12 [as amended]), preferably located within a bathroom; and
- toilet and toilet approach doors shall have a minimum 250mm nib wall on the door handle side of the door and provision for the installation of grab rails in accordance with AS4299, clause 4.4.4 (h) (as amended).

### Deemed-to-comply

**Development** satisfies the following deemed-to-comply requirements (C):

- iii. At least one occupant is a disabled or physically dependent person or aged person, or is the surviving spouse of such a person, and the owner of the land, as a condition of development approval, lodging a section 70A notification on the certificate of title binding the owner, their heirs and successors in title requiring that this occupancy restriction be maintained.

### 5.5.3 Single bedroom dwellings

**P3** Alternative and affordable housing options for singles or couples where it can be demonstrated that the development:

- reduces car dependence, i.e. is located in close proximity to public transport and convenience shopping;
- does not impinge upon neighbour amenity; and
- responds to a demand for single bedroom accommodation in the locality which is recognised in the local planning framework.

**C3** Single bedroom dwellings shall comply with the following:

- i. a maximum plot ratio area of 70m²;
- ii. open space and landscaping in accordance with the requirements of clause 5.1.4 and 5.3.2;
- iii. parking provided in accordance with clause 5.3.3 C3.1 and C3.2;
- iv. an outdoor living area in accordance with the requirements of clause 5.3.1 but reducing the area required by Table 1 by one-third; and
- v. comply with all other elements of Table 1 and Part 5 as relevant.
Part 6

For multiple dwellings in areas coded R40 or greater; within mixed use development and activity centres, refer to R-Codes Volume 2.
7.1 Local planning framework consistent with R-Codes Volume 1

The decision-maker shall not amend or modify the R-Codes Volume 1, to provide for greater or lesser requirements unless it relates to matters expressly permitted under the R-Codes Volume 1 to be amended or modified.

Subject to clause 6.3, a local planning policy, local development plan, or structure plan that affects residential development shall be consistent with the provisions of the R-Codes Volume 1 and may provide local objectives for housing design and development in so far as it guides the consideration of the decision-maker to judge proposals.

The local planning policy, local development plan, or structure plan to have effect, should be available with the scheme where the decision-maker makes the scheme available.

7.2 Pre-existing local planning policies

If a properly adopted local planning policy which came into effect prior to the gazettal of the R-Codes Volume 1 is inconsistent with the R-Codes Volume 1, the R-Codes Volume 1 prevail over the policy to the extent of the inconsistency.

7.3 Scope of local planning policies, local development plans and activity centre plans in relation to Volume 1

7.3.1

Local planning policies, local development plans and activity centre plans may contain provisions that:

(a) amend or replace the following deemed-to-comply provisions set out in Part 5 of the R-Codes Volume 1:

- **Context**
  - street setbacks (clause 5.1.2)
  - lot boundary setbacks (clause 5.1.3 C3.2-3.3, building height (clause 5.1.6)

- **Streetscape**
  - setback of garages and carports (clause 5.2.1)
  - garage width (clause 5.2.2)
  - street surveillance (clause 5.2.3)
  - street walls and fences (clause 5.2.4)
  - sight lines (clause 5.2.5)
  - appearance of retained dwelling (clause 5.2.6)

- **Site planning and design**
  - site works (clause 5.3.7)

- **Building design**
  - external fixtures (clauses 5.4.4)

- **Special purpose dwellings**
  - aged and dependent persons’ dwelling(s) (clause 5.5.2 C2.1ii)

(b) augment the R-Codes Volume 1 by providing local housing objectives to guide judgements about the merits of proposals for any aspect of residential development covered by this volume that does not meet the requirements or is not provided for, under the R-Codes Volume 1.

Amendments or replacements to deemed-to-comply provisions are to be consistent with the relevant design principle.

7.3.2

Notwithstanding clause 7.3.1, the local government may, with the approval of the WAPC, amend any other deemed-to-comply provision within the R-Codes Volume 1 by means of a local planning policy, activity centre plan or local development plan where it can be demonstrated to the satisfaction of the WAPC that the proposed amendment:

- is warranted due to a specific need related to that particular locality or region;
- is consistent with the objectives and design principles of the R-Codes Volume 1; and
- can be properly implemented and audited by the decision-maker as part of the ongoing building approval process.
Appendix 1 – Definitions

In the case of residential development under the R-Codes, unless the context requires otherwise, words and expressions have the meaning given to them below.

Active habitable space

Any habitable room with a floor area greater than 10m² and any balcony, verandah, terrace or other outdoor living area raised more than 0.5m above natural ground level.

Activity centre

As defined under the Planning and Development (Local Planning Schemes) Regulations 2015 and are community focal points that include activities such as commercial, retail, higher-density housing, entertainment, tourism, civic, community, higher education, and medical services. Activity centres vary in size and composition and are designed to be well-serviced by public transport.

Activity centre plan or activity centre structure plan

As defined under the Planning and Development (Local Planning Schemes) Regulations 2015 and are prepared in accordance with State Planning Policy 4.2.

Adjoining property

Any lot:

• on which any dwelling for which provision is made in the R-Codes may be constructed under the scheme; and

• which shares a boundary or portion of a boundary with a lot on which there is a proposed residential development site or is separated from that lot by a right-of-way, vehicle access way, pedestrian access way, access leg of a battleaxe lot or the equivalent not more than 6m in width.

Aged person

A person who is aged 55 years or over.

Ancillary dwelling

Self-contained dwelling on the same lot as a single house which may be attached to, integrated with or detached from the single house.

Balcony

A balustraded platform on the outside of a dwelling with access from an upper internal room.

Battleaxe lot

A single house lot that has a frontage for purposes of servicing and access to a public road only through a strip of connecting land containing a pedestrian and/or vehicular access way that is part of the lot. The term excludes a site that has vehicle access from a private or communal street or right-of-way connected to a public road.

Building

Any structure whether fixed or moveable, temporary or permanent, placed or erected on land, and the term includes dwellings and structures appurtenant to dwellings such as carports, garages, verandas, patios, outbuildings and retaining walls, but excludes boundary fences, pergolas and swimming pools.

Carport

A roofed structure designed to accommodate one or more motor vehicles unenclosed except to the extent that it abuts a dwelling or a property boundary on one side, and being without a door unless that door is visually permeable.

Common property

• So much of the land comprised in a strata plan as from time to time is not comprised in a lot shown on the plan.

• Any leasehold interest acquired by a strata company under section 18 of the Strata Titles Act 1985, as amended.

• The lot or lots shown on a survey strata plan as common property.

Communal open space

In Volume 1 means open space set aside for the recreational use of the occupants of the dwellings in a common development and does not include driveways or car parking areas.
Appendix 1 – Definitions

**Communal street**
A private carriageway providing joint access to two or more dwellings in a residential development.

**Cone of vision**
The limits of outlook from any given viewpoint, applying a viewing cut off angle not less than 45 degrees, for the purposes of assessing the extent of overlooking from that point outlined in clause 5.4.1 as set out in Figure Series 10.

**Decision-maker**
That body, organisation or authorised person legally vested with the power to make decisions, pursuant to relevant legislation, in respect of residential development in accordance with the R-Codes.

**Deemed-to-comply**
A proposal, or a component of a proposal, that complies with the deemed-to-comply provisions of the R-Codes, or an adopted local planning policy.

**Dependant person**
A person with a recognised form of disability requiring special accommodation for independent living or special care.

**Design principles**
In R-Codes Volume 1, specific design objectives for each element of R-Codes Volume are to be met by all residential development subject to Volume 1 and are to be used in the preparation, submission and assessment for proposals for the purpose of determining their compliance with R-Codes Volume 1. A proposal is required to demonstrate compliance with design principles where it does not satisfy corresponding deemed-to-comply provisions.

**Development**
As defined under the Planning and Development Act 2005.

**Development site**
A parent lot in which development is proposed.

**Driveway**
The portion of the paved vehicle access way between a car parking area and the property boundary, excluding any associated landscaping or pedestrian path on either side.

**Dwelling**
A building or portion of a building being used, adapted, or designed or intended to be used for the purpose of human habitation on a permanent basis by a single person, a single family, or no more than six persons who do not comprise a single family.

**Enclosed**
An area bound on three or more sides by a permanent wall and covered in a water impermeable material.

**External fixtures**
These are utilities, equipment, plant or other structures which are necessary for a dwelling to achieve efficient, comfortable and environmentally sustainable operating outcomes and may include; solar collectors, rainwater storage tanks, clothes drying structures, communications and power and water infrastructure, letterboxes, or other fixtures as necessary for the residential use of the buildings on-site.

**Frontage**
The width of a lot at the primary street setback line, provided that in the case of battleaxe or other irregularly shaped lots, it shall be as determined by the decision-maker.

**Garage**
Any roofed structure, other than a carport, designed to accommodate one or more motor vehicles and attached to the dwelling.

**Green title**
A lot owned in fee simple issued with a certificate of title under the Transfer of Land Act 1893, as amended, other than a strata lot or a survey strata lot.

**Grouped dwelling**
A dwelling that is one of a group of two or more dwellings on the same lot such that no dwelling is placed wholly or partly vertically above or below another, except where special conditions of landscape or topography dictate otherwise, and includes a dwelling on a survey strata with common property.
**Appendix 1 – Definitions**

**Habitable room/space**
As defined by the BCA for a room/space used for normal domestic activities that includes:
- a bedroom, living room, lounge room, music room, sitting room, television room, kitchen, dining room, sewing room, study, playroom, family room, sunroom, gymnasium, fully enclosed swimming pool or patio; but excludes
- a bathroom, laundry, water closet, food storage pantry, walk-in wardrobe, corridor, hallway, lobby, photographic darkroom, clothes drying room, verandah and unenclosed swimming pool or patio and other spaces of a specialised nature occupied neither frequently nor for extended periods.

**Height, building**
This is the distance between the point where the base of the wall meets the natural ground level and measured to the highest point of a wall or roof of a building vertically above that point (for measurement guidance refer to Figure Series 7) excluding minor projections.

**Height, wall**
The vertical distance from the natural ground level at the boundary immediately adjacent to the wall to the roof or parapet at any point in accordance with Figure Series 3 and 5.

**Heritage place**
A place listed on the Commonwealth or State heritage register or the municipal heritage inventory of the scheme.

**High frequency route**
A public transport route with timed stops that runs a service at least every 15 minutes during week day peak periods (7 to 9am and 5 to 7pm).

**Incidental development**
Development which is associated with or attached to a dwelling and incidental to its main residential functions.

**Internal walls**
Those walls which are wholly included within the dwelling including walls that abut covered outdoor living areas but does not include walls which are common to two dwellings in grouped or multiple dwelling developments.

**Landscape, landscaping or landscaped**
Land developed with garden beds, shrubs and trees, or by the planting of lawns, and includes such features as rockeries, ornamental ponds, swimming pools, barbecue areas or playgrounds and any other such area approved of by the decision-maker as landscaped area.

**Local development plan**
As defined under the Planning and Development (Local Planning Schemes) Regulations 2015.

**Local planning framework**
Comprises all strategic, statutory and policy planning documents which collectively outline the planning for an area and development requirements for sites, of the decision-maker and generally include a scheme, local planning strategy (including any housing component), structure plans, activity centre plans, local development plans and local planning policies.

**Local planning policy**
Any policy prepared by a local government in accordance with the procedures set out in the scheme.

**Local planning strategy**
As defined under the Planning and Development (Local Planning Schemes) Regulations 2015 and is a document which supports the preparation and review of a scheme in accordance with Part 3 of the Planning and Development (Local Planning Schemes) Regulations 2015.

**Lot**
For single houses, a lot as defined under the Planning and Development Act 2005, as amended. For multiple or grouped dwellings, the parent lot.

**Lot boundary**
The boundary between a lot and any other parcel of land, excluding a street boundary.
Appendix 1 – Definitions

**Major opening**
A window, door or other opening in the exterior wall of a habitable room that provides external means of light or view for that room or space, but does not include an opening or openings that:

- in aggregate do not exceed 1m² in any such wall, (provided that adjoining or contiguous windows at the junction of two walls forming an internal angle of 90 degrees or less shall be aggregated); or
- are glazed in an obscure material and are not able to be opened; or have a sill height not less than 1.6m above floor level.

**Minor projection**
- In relation to the height of a building: a chimney, vent pipe, aerial or other appurtenance of like scale;
- In relation to a wall: a rainwater pipe, vent pipe, eaves overhang, cornice or other moulding or decorative feature, provided that the projection does not exceed 0.75m measured horizontally.

**Mixed use development**
Buildings that contain commercial and other non-residential uses in conjunction with residential dwellings in a multiple dwelling configuration.

**Multiple dwelling**
A dwelling in a group of more than one dwelling on a lot where any part of the plot ratio area of a dwelling is vertically above any part of the plot ratio area of any other but:

- does not include a grouped dwelling; and
- includes any dwellings above the ground floor in a mixed use development.

**Natural ground level**
The levels on a site which precede the proposed development, excluding any site works unless approved by the decision-maker or established as part of subdivision of the land preceding development.

**Open space**
Generally that area of a lot not occupied by any building and includes:

- open areas of accessible and useable flat roofs and outdoor living areas above natural ground level;
- areas beneath eaves;
- verandahs, patios or other such roofed structures not more than 0.5m above natural ground level, unenclosed on at least two sides, and covering no more than 10 per cent of the site area or 50m² whichever is the lesser;
- unroofed open structures such as pergolas;
- uncovered driveways (including access aisles in car parking areas) and uncovered car parking spaces; but excludes:
  - non-accessible roofs, verandahs, balconies and outdoor living areas over 0.5m above natural level; and/or
  - covered car parking spaces and covered walkways, areas for rubbish disposal, stores, outbuildings or plant rooms.

**Outdoor living area**
The area external to a single house, grouped or multiple dwelling to be used in conjunction with that dwelling such that it is capable of active or passive use and is readily accessible from the dwelling.

**Outbuilding**
An enclosed non-habitable structure that is detached from any dwelling.

**Parent lot**
Relating to multiple or grouped dwellings, the lot inclusive of common areas to which the strata scheme, as defined under the Strata Titles Act 1985, as amended, relates.

**Patio**
An unenclosed structure covered in a water impermeable material which may or may not be attached to a dwelling.

**Pergola**
An open-framed structure covered in a water permeable material or unroofed, which may or may not be attached to a dwelling.

**Plot ratio**
The ratio of the gross plot ratio area of buildings on a development site to the area of land in the site boundaries.
Appendix 1 – Definitions

Plot ratio area
The gross total area of all floors of buildings on a development site, including the area of any internal and external walls but not including:

- the areas of any lift shafts;
- stairs or stair landings common to two or more dwellings;
- machinery, air conditioning and equipment rooms;
- space that is wholly below natural ground level;
- areas used exclusively for the parking of wheeled vehicles at or below natural ground level;
- storerooms;
- lobbies, bin storage areas, passageways to bin storage areas or amenities areas common to more than one dwelling; or
- balconies, eaves, verandahs, courtyards and roof terraces.

Residential building
A building or portion of a building, together with rooms and outbuildings separate from such building but incidental thereto; such building being used or intended, adapted or designed to be used for the purpose of human habitation:

- temporarily by two or more persons; or
- permanently by seven or more persons, who do not comprise a single family, but does not include a hospital or sanatorium, a prison, a hotel, a motel or a residential school.

Secondary street
In the case of a site that has access from more than one public road, a road that is not the primary street.

Setback
The horizontal distance between a wall at any point and an adjacent lot boundary, measured at right angles (90 degrees) to the boundary.

Primary street
Unless otherwise designated by the local government, the sole or principal public road that provides access to the major entry (front door) to the dwelling.

Private open space
For R-Codes Volume 1 means open space set aside on a lot for the exclusive use of the occupants of the dwelling to which it abuts and excludes car parking spaces and access ways.

Scheme
The local planning scheme that specifies zoning and development standards gazetted pursuant to the Planning and Development Act 2005, as amended.

Screening
Permanently fixed external perforated panels or trellises composed of solid or obscured translucent panels.

Residential development
Development of permanent accommodation for people, and may include all dwellings, the residential component of mixed-use development, and residential buildings proposing permanent accommodation.

Right-of-way
A laneway, private street, or other use of land (not being a public street or road) that provides vehicular access to a development site.

Secondary street
In the case of a site that has access from more than one public road, a road that is not the primary street.

Setback
The horizontal distance between a wall at any point and an adjacent lot boundary, measured at right angles (90 degrees) to the boundary.

Single bedroom dwelling
A dwelling that contains a living room and no more than one other habitable room that is capable of use as a bedroom.

Single house
A dwelling standing wholly on its own green title or survey strata lot, together with any easement over adjoining land for support of a wall or for access or services and excludes dwellings on titles with areas held in common property.

Site
- In the case of a single house, the green title or survey strata lot on which it stands.
- In the case of a grouped dwelling, the area occupied by the dwelling together with any area allocated (whether by way of strata title or otherwise) for the exclusive use or benefit of that dwelling.
- In the case of a multiple dwelling or apartment development, the lot (or parent lot) where the lot is subdivided under strata title on which the dwellings stand.
Appendix 1 – Definitions

Site area
The area of land required for the construction of a dwelling to satisfy the requirements of the R-Codes.

Solar collectors
Solar collecting components of the following: thermal heating systems, photovoltaic systems and skylights.

Special purpose dwelling
Includes ancillary dwelling, aged or dependent persons’ dwelling or a single bedroom dwelling.

Strata lot
One or more cubic spaces forming part of a lot in a strata scheme.

Strata plan
Has the meaning given by section 4 (1a) of the Strata Titles Act 1985, as amended.

Strata scheme
Has the meaning given under the Strata Titles Act 1985, as amended.

Street
Any public road, communal street, private street, right-of-way or other shared access way that provides the principal frontage to a dwelling but does not include an access leg to a single battleaxe lot.

Street setback
The horizontal distance between the street alignment and a building, measured at right angles (90 degrees) to the street alignment.

Street setback area
The area between the street alignment and the street setback line as set out in Tables 1 and 4 or as established in a particular case in accordance with the provisions of design element 5.2.

Street boundary
The boundary between the land comprising a street and the land that abuts thereon.

Structure plan
As defined under the Planning and Development (Local Planning Schemes) Regulations 2015.

Survey strata
A lot and associated common property as shown on a registered survey strata plan prepared in accordance with section 4(1b) of the Strata Titles Act 1985, as amended.

Survey strata lot
Land that is shown as an ordinary lot consisting of two or more lots on a survey strata plan and does not include a lot shown as common property prepared in accordance with section 3 of the Strata Titles Act 1985, as amended.

Survey strata plan
A registered survey strata plan prepared in accordance with section 4 (1b) of the Strata Titles Act 1985, as amended and which shows the whole or any part of the land comprised in the plan as divided into two or more lots.

Survey strata scheme
The manner of division of the land comprised in a survey strata scheme into lots and common property and the manner of the allocation of unit entitlements, rights and obligations among the lots.

Unenclosed
An area bounded on no more than two sides by a permanent wall and covered in a water impermeable material.

Verandah
A roofed open platform attached to a dwelling.

Visually permeable
In reference to a wall, gate, door, screen or fence that the vertical surface when viewed directly from the street or other public space has:

- continuous vertical or horizontal gaps of 50mm or greater width occupying not less than one third of the total surface area;
- continuous vertical or horizontal gaps less than 50mm in width, occupying at least one half of the total surface area in aggregate; or
- a surface offering equal or lesser obstruction to view.

Wall
The vertical external face of a constructed building comprising solid building material and including enclosures to verandahs and balconies.

WAPC
Western Australian Planning Commission.

<tr>
<td>Top of pitched roof (iii) (iv)</td>
<td>6m</td>
</tr>
</tbody>
</table>

i. Category B will apply unless a scheme, the relevant local planning policy, structure plan or local development plan requires the application of category A (generally single level development) or category C (development on three levels) or an alternative standard.

ii. Gable walls above eaves height:
- less than 9m long: exempted
- greater than 9m long: add one third of the height of the gable, between the eaves and the apex of the gable wall, to the eaves height.

iii. Applies to ridges greater than 6m long. Short ridges: add 0.5m height for each 2m reduction in length.

iv. Applies to roof pitches up to 25 degrees. In some localities steeper pitches may be required and greater height permitted in accordance with the provisions of the scheme, the relevant local planning policy, structure plan or local development plan.
**Figure Series 1 – Site area measurement**

**Intent**

The purpose of Figure Series 1 is to illustrate additional areas that may be included in **site area** for the purposes of clause 5.1.1 C1.3.

**Figure 1a – Truncation area may be included (clause 5.1.1 C1.3i)**

**Figure 1b – Areas of rear laneways or reserves (to a maximum of 2m) are included in minimum site area for single house on battleaxe lot (clause 5.1.1 C1.3ii)**
Figure Series 2 – Street setbacks

Intent

The purpose of Figure Series 2 is to illustrate how to determine street setbacks for the purposes of clause 5.1.2.

Development within the street setback is to be designed to limit the visual intrusion into views from neighbouring dwellings into the street and from along the street.

Figures

S1  Primary street setback distance (Table 1)
S2  Distance behind the primary street setback, equal to S1
S3  Side boundary setback (Table 2a and 2b)
S4  Maximum reduced primary street setback (half of S1)
S5  Maximum 1m projection as per clause 5.1.2 C2.4
A1  Area of building forward of primary street setback
A2  Compensating open area behind primary street setback
L1  Maximum 20 per cent of building façade

A1 Area of building forward of primary street setback
A2 Compensating open area behind primary street setback
L1 Maximum 20 per cent of building façade
Figure Series 3 – Wall height for lot boundary setbacks

**Intent**

The purpose of Figure Series 3 is to illustrate the correct method for measuring the height of various **walls** and **buildings** for the purposes of clause 5.1.3 C3.1i.

**Notes**

- The height of the **wall** for the measurement of **setbacks** is measured from the **natural ground level** at the **lot boundary** adjacent to the wall to the highest point of the **building** vertically above that point where the wall touches the roof (Figure 3a-3h, 3b and 3c).

- Where the **lot boundary** adjacent to the **wall** is lower than the **natural ground level** at the base of the wall, the greater height is used (Figure 3b, 3d, 3f and 3h).

- Where the **lot boundary** adjacent to the **wall** is higher than the **natural ground level** at the base of the wall, the lesser height is used (Figure 3e and 3g).
Figure Series 3 – Wall height for lot boundary setbacks

**Figure 3d – Cross section, sloped site**

**Figure 3e – Cross section, sloped site**

**Figure 3f – Cross section, alternate levels with existing retaining wall**

**Figure 3g – Cross section, alternate levels with fill**

**Figure 3h – Cross section, skillion roof**

**Notes**

H = The height of the wall for the measurement of setbacks is measured from the natural ground level at the lot boundary adjacent to the wall to the highest point of the building vertically above that point where the wall touches the roof (Figure 3a-3h, 3b and 3c).

Where the lot boundary adjacent to the wall is lower than the natural ground level at the base of the wall, the greater height is used (Figure 3b, 3d, 3f and 3h).

Where the lot boundary adjacent to the wall is higher than the natural ground level at the base of the wall, the lesser height is used (Figure 3e and 3g).
Figure Series 4 – Wall length for lot boundary setbacks

Intent

The purpose of Figure Series 4 is to illustrate the method for measuring the appropriate setback for a length of wall adjacent to a lot boundary for the purposes of clause 5.1.3 C3.1.

Notes

For the purposes of calculating setback, the length of wall means the total horizontal dimension of the side of the building nearest the lot boundary. Setbacks shall be determined in accordance with the following and with reference to Tables 2a and 2b, subject to the privacy requirements of clause 5.4.1:

4a Where A is more than 3m, B shall be treated as a separate wall, providing that the length C shall be the basis for determining the setback of the rest of the side of the building.

4b Where the side of a building includes one portion of a wall without a major opening (such as E), the setback shall be determined independently providing the setback of the rest of that side of the building (D) is determined on the basis of the total length C.

4c Where the side of the building includes two or more portions of a wall without a major opening (such as E) their setbacks shall be determined independently of each other provided they are separated from one another by a distance (D) of more than 4m (in the case of wall heights of 6m or less) and an additional 1m for every 3m increase in height.

The setback of D shall be determined on the basis of the total length (C).
**Figure Series 4 – Wall length for lot boundary setbacks**

**Figure 4d – Measurement of length of upper floor walls for calculating setbacks**

Notes:
L1 Length of **walls** on the ground floor is determined as per Figures 4a-c.

Length of **walls** with **major openings** on upper floors is determined as the lesser of the actual length of wall or from a point 2m beyond each major opening.

Length for **walls** without **major openings** on upper floors is determined as per Figures 4a-c.

**Figure 4e – Boundary setbacks for walls greater than Table 2a and 2b**

Notes:
Intermediate values for **wall heights** over 10m are to be determined by interpolation.
Figure Series 4 – Wall length for lot boundary setbacks

Figure 4f – Reduced boundary setbacks (clause 5.1.3 C3.1)

Notes
S3 Side boundary setback (Table 2a and 2b).

Setbacks can be reduced by half the width of adjoining battleaxe lot legs, pedestrian access ways or rights-of-way to a maximum of 2m.
**Figure Series 5 – Lot Boundary walls**

**Intent**

The purpose of Figure Series 5 is to illustrate the correct method for measuring the height of various walls for the purposes of clause 5.1.3.

**Figure 5a – Elevation – flat site**

![Elevation - flat site](image)

Notes

The height of a **lot boundary wall** shall be measured to the point immediately above the **natural ground level** below.

5a Where the boundary **wall** is not consistent in height for its length, or comprises a pitch, the height shall be measured as the midpoint between the lowest point immediately above the **natural ground level** below and the highest point immediately above the **natural ground level** below.

**Figure 5b – Elevation – sloped site**

![Elevation - sloped site](image)

5b Where the boundary is sloped the height shall be the average of the heights of the **wall** at its highest and lowest point above **natural ground level** (Ha and Hb).

**Figure 5c – Elevation – sloped site**

![Elevation - sloped site](image)

5c Where the boundary is sloped and the boundary wall is not consistent in height for its length, or comprises a pitch, the height shall be the average of H1, H2, and H3, where H2 is the maximum height above **natural ground level**, and H1 and H3 are the height above **natural ground level** at each end of the **wall**.
**Intent**

The purpose of Figure Series 6 is to illustrate the appropriate design and functionality of portions of the site which may be used for open space.

**Figure 6a – Measuring open space (clause 5.1.4 C5)**

**Notes**

- **S3** Side boundary setback (Table 2a and 2b)
- **A** Uncovered open space
- **B** Unenclosed, covered outdoor living area (to a maximum 10 per cent site area or 50m², whichever is lesser)
- **C** Side setback area
- **D** Uncovered driveway or uncovered car parking spaces

Open space = A + B + C + D
**Intent**

The purpose of Figure Series 7 is to show how to measure building height for the purposes of clause 5.1.6.

**Figure 7a – Measuring building height**

**Figure 7b – Deemed natural ground level**

**Notes**

- The height of a building is taken as the highest point at any part of the development immediately above natural ground level.
- Where natural ground level varies across the site, deemed natural ground level is to be used.
**Figure Series 8 – Garages and carports**

**Intent**

The purpose of Figure Series 8 is to illustrate the determination of primary street setbacks and the measurement of width for garages and carports for the purposes of clauses 5.2.1 and 5.2.2.

**Figure 8a – Carport setbacks (clause 5.2.1 C1.5)**

**Notes**

- **S1** Primary street setback distance (Table 1)
- **S2** Distance behind the primary street setback, equal to S1
- **S3** Side boundary setback (Table 2a and 2b)
- **S4** Maximum reduced setback (half S1)
- **S5** Minimum 4.5m as per clause 5.2.1 C1.1
- **L2** Maximum 50 per cent of frontage

The area of the carport or garage forward of the primary street setback is to be compensated by open space behind the setback in accordance with clause 5.1.2 C2.1iii and Figure 2a.
Figure 8c – Garage doors (clause 5.2.2 C2)

Garage doors and its supporting structures not more than 50% of frontage

13m frontage

6.5m
Figure Series 9 – Sight lines

Intent

The purpose of Figure Series 9 is to illustrate areas to be kept clear for the purposes of clause 5.2.5 C5.

Figure 9a – Locations of truncations or reduced fence height
Figure Series 10 – Privacy

Intent

The purpose of figure series 10 is to illustrate how to establish the cone of vision to determine overlooking, and how to measure privacy setbacks for the purposes of clause 5.4.1 C1.1.

Figure 10a – Establishing the horizontal component of cone of vision

Figure 10b – Measurement of minimum privacy separation distances
Figure Series 10 – Privacy

Figure 10c – Measuring privacy setbacks using the cone of vision

Note
Hatching over adjoining outdoor living area requires screening for compliance as shown.
**Intent**

The purpose of Figure Series 11 is to illustrate the correct way of measuring overshadowing for the purposes of clause 5.4.2.

**Figure 11a – Calculation of overshadowing (clause 5.4.2 C2.1)**

Notes

For methodology on the calculation of overshadowing in Figure 11a, see the explanatory guidelines.

**Figure 11b – Proportionate limits from shared northern boundaries (clause 5.4.2 C2.2)**

- LOT A shares 50% of Lot C’s northern boundary
- LOT B shares 50% of Lot C’s northern boundary

LOT A can cast shadow over maximum 12.5% of Lot C site area

LOT B can cast shadow over maximum 12.5% of Lot C site area

LOT C

maximum 25% of site area can be overshadowed
